Dear MPC,

We have lived in the Deane Hill Subdivision for over 25 years. It greatly disturbs me to think how little thought is given to our neighborhood! We have been encroached upon on all sides. And now there is even more possible development of an area already over populated and heavily traveled. Nothing has ever been done to help solve the problem of cut thru traffic in our neighborhood. At the same time there has been zero done to improve Deane Hill Drive. This road is about the same as it has been since Bearden was a farming area. You cannot keep adding **more and more population** to roads like Deane Hill and Westland.

It should not be just about development but it should be about the quality of life and ours has taken a turn for the worst over the past 2 decades. Please vote **NO to rezoning** at this time until a plan for quality and road improvement can be put into place. It is about the future of our beautiful area and the generations to come.

Sincerely,

Mr. & Mrs. C.B. Elmore
