STAFF RECOMMENDATION:

▶ **APPROVE** the request to amend the development plan to permit a 10' or 15' front yard setback for the attached single family dwellings as shown on the plan subject to 1 condition

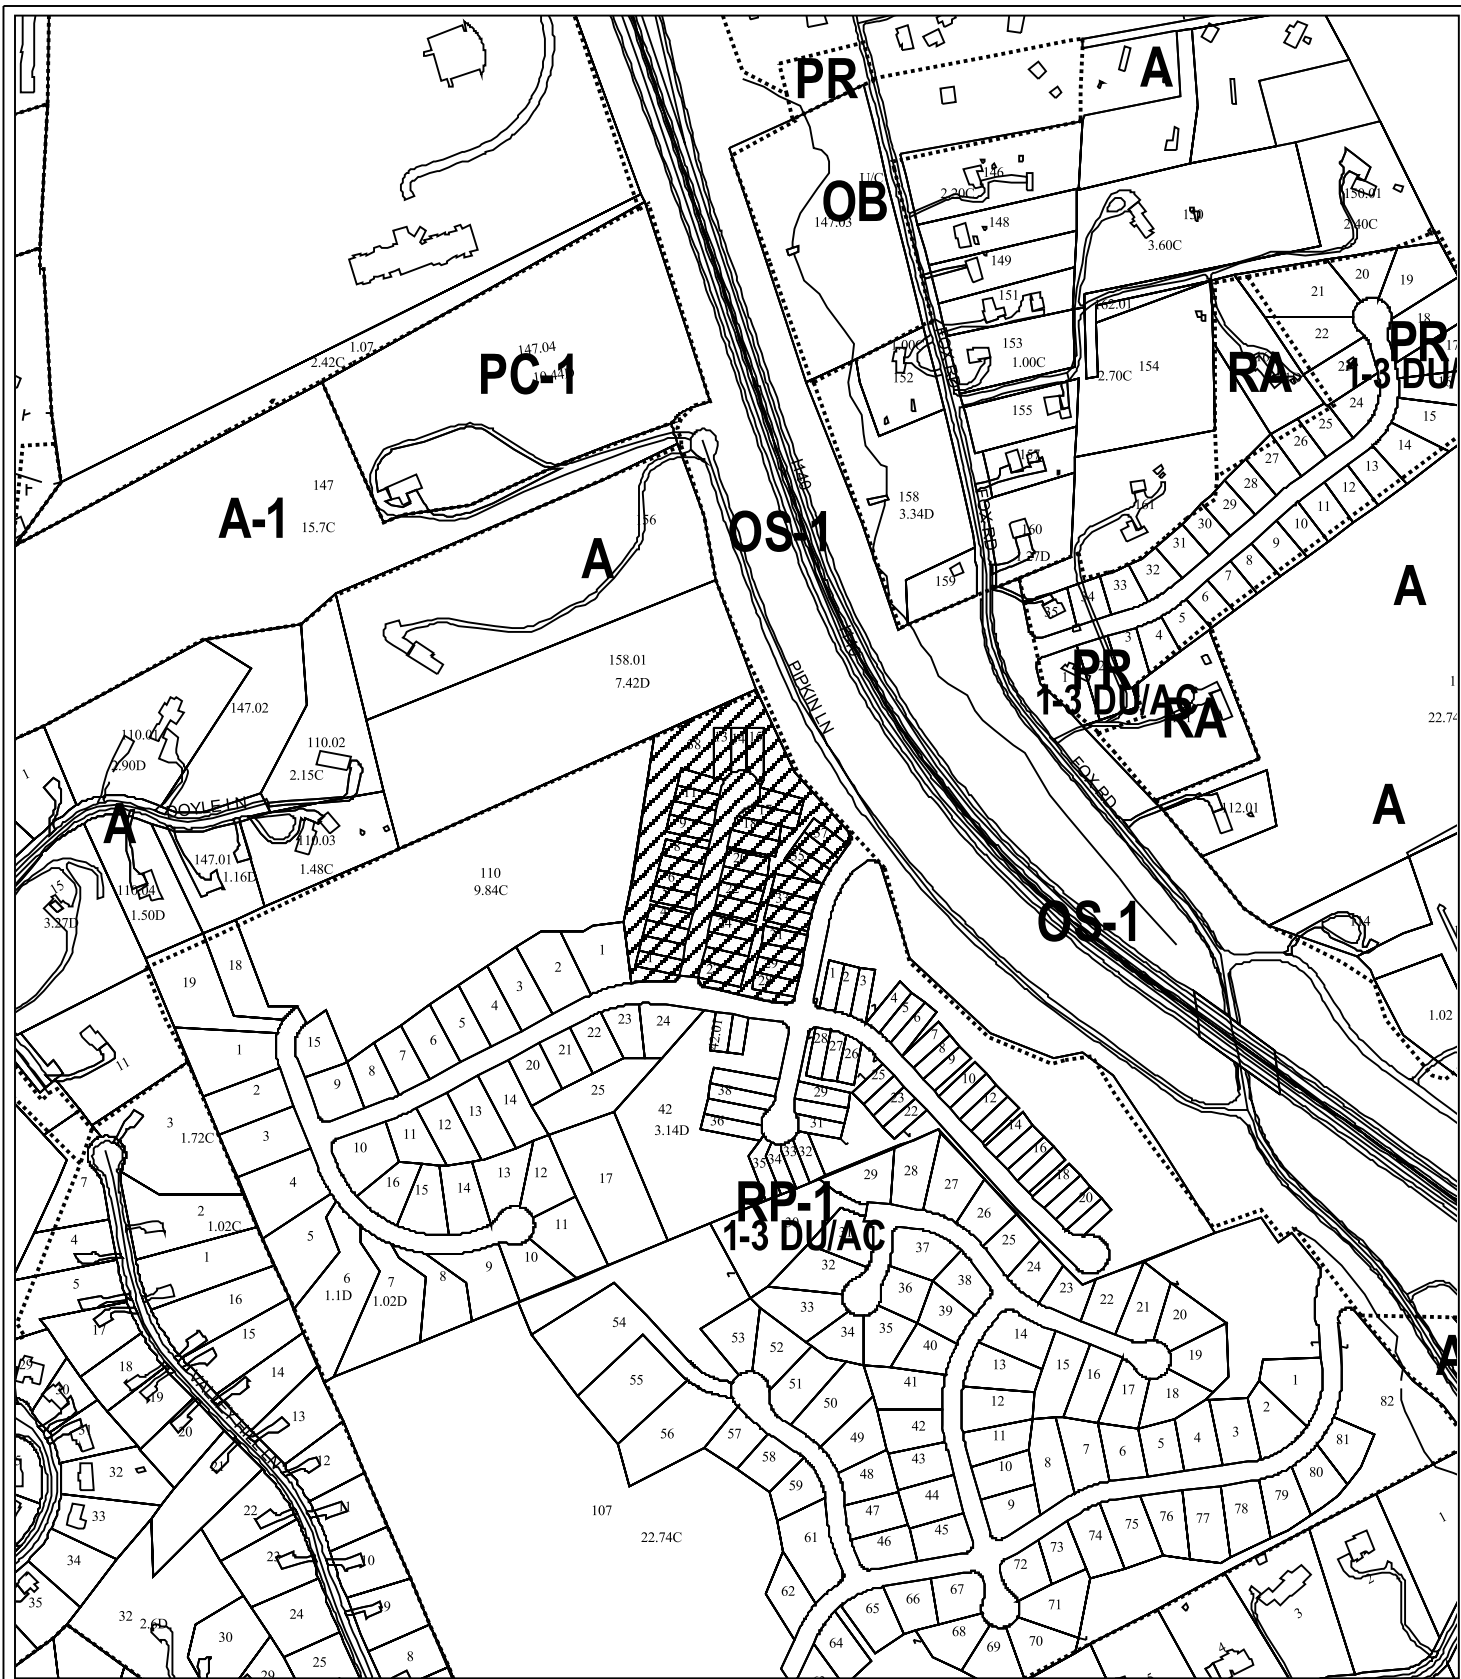

1. Meeting all required conditions of the previously approved concept subdivision plan (4-SB-06-C) and use or review (4-C-06-UR).

COMMENTS:

The applicant is requesting to amend the previously approved development plan 4-C-06-UR). At the time the plan was approved the applicant stated that the attached single family dwellings would be required to have a 15' front yard setback. The applicant is now requesting the front yard setback for the some of the attached units be permitted to be decreased to 10'. The PR (Planned Residential) zone permits the applicant with the approval of the MPC to establish the minimum required setbacks. A 10' front setback has been approved in

past when there are site circumstances that make have a larger setback impractical. Due to the steepness of this site, staff believes the 10' front setback can be justified. Each dwelling will be constructed with a two car garage.

MPC's approval or denial of this request is final, unless the action is appealed to the Knoxville City Council. The date of the Knoxville City Council hearing will depend on when the appeal application is filed. Appellants have 15 days to appeal an MPC decision in the City.
