Re: Christian Springs Rezoning

To whom it may concern:

I recently purchased a home in the middle of the Christian Springs property that is to be rezoned and have talked to the developers about the rezoning. This rezoning will affect me more than anyone else in the area and after talking to the developers, I have no problem with the increase from 2 to 2.5 units per acre. I would recommend approval of their request.

Sincerely,

Raymond Ritter
