Page 2 #65

The following petition is signed by residents of Irwin Road and Oakmeade Road in the Powell Community. Both of these roads are adjacent to the property at 1109 Irwin Rd. (formerly the Nicely residence) which is up for rezoning. The new owners of the 9 1/2 acres are requesting a rezoning from R.A. to P.R. which could allow as many as 4 houses per acre to be built. Irwin Road is a narrow, hilly, winding road that already carries a large amount of traffic. Oakmeade Road and Irwin Road are used by many Powell residents as a shortcut to interstate I-75 as well as a detour around the main Southern Railroad tracks on Beaver Creek Drive. We also get considerable traffic from a very large church, school and college in our neighborhood. We are not opposed to reasonable development but anything over one house per acre would be overwhelming to our neighborhood
