RE: T-Mobile Proposed Tower @ 6909 Ward Road  
(Parcel ID - 057-135) 9KX0039/Ward Road  
File # 3-G-08-UR

Dear Honorable Commission Members:

I recently purchased the property (11 acres) next door to the Moose Lodge and in direct line with the proposed location of the tower.

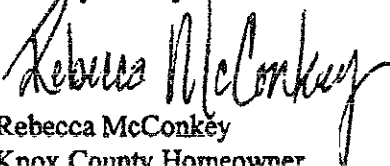

We are already underway on building the first home on a partial lot across the street. Our plans, which have already been discussed with the MPC office, are to develop the 'wooded area' that borders the Moose Lodge property. We are also building our own home and a home for my parents on this property where we are planning to live and call home.

This area is an up and coming part of our County and has not fully been developed yet. It is hard to find property where there is still a country setting close to town. The community already has to deal with the extra traffic flow and the noise from the shooting range that the Moose Lodge produces.

I strongly am opposed to the tower being placed at 6909 Ward Road. It may be within the required 330' of a residence now but a tower would eliminate any plans we have to build on our own property.

Please accept this letter as my statement against this proposal (File # 3-G-08-UR) as I am unable to leave work to attend the MPC meeting. Please feel free to call me to discuss.

Thank you for your time.
