Subject: rezoning of property

My husband and I own 3 lots on Chapman Highway at Longvale Rd between the old Wal-mart and the new Wal-mart. We also own two lots on Longvale Road. One is vacant, the other is a rental house. We desire to rezone the vacant lot from RB TO CB and tie it to the three commercial lots as one piece of property. The lot with the house at 120 Longvale will serve as a buffer between the commercial lots and the neighborhood. We have a permit from TDEC and Knox County Engineering to finish the grading that was started. We will implement that plan later this year. Whether we build a self storage facility or someone else purchases the property, I do not believe the neighborhood will be adversely affected. We ask that you approve our rezoning on May 8th.

Sincerely,
Janice and Gary Hines
