Because the US Post Office does not deliver my mail to my street address but to the 2901 Choto Road address Box Number 36, I am against the name change. My street names does not correspond with my mail delivery address.

If the Post Office will deliver my mail directly to my house, I would support changing the name from "The Glen" to "Shady Glen Way " I also understand that the original street names were not registered with the MPC. As that is the case, I have no objections to changing street names save for the fact that I do not see the logic in having to change my mailing address from 2901-36 Choto Road to whatever the new mailing address would be. My mail is delivered to a box on 2901 Choto Road, and it makes perfect sense to me to leave the mailing address as it is.
