**Subject:** Janice Loveday property

To all commissioners,

You have the Janice Loveday property 1-C-090-RZ and 1-C-09-PA. I agree that the property should be rezoned to C-1. This more restrictive zone will insure that the controls of what type of commercial business may be located at this site.

If C-3 is approved then the buyer or seller can back out of the intended use, the property then will be open for any commercial business with little or no restrictions'. The surrounding area has several zoned commercial lots available with better access to and from Gov. John Sevier highway. Having C-3 commercial at this site will defeat the planning and control that was agreed upon in the south sector plan.

With the addition of the center turning lane on Gov. John Sevier hwy this has created a middle passing lane. The entrance to this site will create extreme hazards during the rush business hours. The intent from the beginning was to develop this site with office/business to conform with the other structures that are located be side this lot.

Before any approval MPC should require from the seller a TDOT approval of the entrance with restrictions for turning accross road traffic or a red light at the intersection of Maryville Pike and Gov. John Sevier.

Thank you.

**Subject:** re: Opposition to the proposed plan of General Commercial for Agenda Item #39

February 9, 2009

Dear Honorable MPC Commissioners:

The South Doyle Area Homeowners Association voted unanimously to oppose the approval of the proposed plan of GC (General Commercial) / C-3 (General Commercial) for FILE#: 1-C-09-RZ AGENDA ITEM #: 39

APPLICANT: JANICE LOVEDAY

OWNER(S): JOHN D. & GLENDA  
C. HALL, JR

We believe that MPC staff accurately detailed one of our main concerns in their list of "Effects of the Proposal" which would be the impact of the street system.

There are surrounding commercial uses already established on numerous vacant properties in the surrounding area. Some of those properties at Governor John Sevier Highway and Maryville

Pike even have the street system in place (Martel Road) to offset impacts on the surrounding street systems.

The South County Sector Plan does not propose commercial use for this property. We believe that we have a well working South County Sector Plan. Until the surrounding commercial designated properties build out, we see no need to extend commercial zonings.

We believe that the present plan designation and zoning of O (Office) / O-1 (Office, Medical, and Related Services) for this property matches the neighborhood with the surrounding medical and related facilities already in existence.

Thank you for considering our position.

Sincerely,  
Victoria DeFreese  
(President of the South Doyle Area Home  
Owners Association)

Thank you in advance for your consideration

I, the owner of the subject property and also own the property that buters the subject  
On January 10, 2009 it was brought before the Metropolitan Planning Commission to  
rezone the property from O-1 Office/ medical to N-C Neighborhood commercial, with  
only one objection brought to your attention regarding the rezoning, his concern was that  
it would eliminate the scenic value of Governor John Sevier Hwy. I also own and operate  
a 12,000 square foot business behind this property, however my property and the  
Orthodontists office are the only medical / office users fronting Governor John Sevier  
Hwy, the other businesses that surround us are all retail as you can see in your packet  
I hope you will agree that the scenic values have not been compromised by the existing  
business group, and that a Dollar Store would enhance the existing business community  
and create much needed job opportunities for the community and certainly not affect the  
scenic value of the property.

**STAFF RECOMMENDATION:** **ADOPT RESOLUTION # 1-C-09-PA amending the One Year Plan designation from O (Office) to NC (Neighborhood Commercial). Applicant requested GC (General Commercial).**

Neighborhood Commercial designation and C-1 (Neighborhood Commercial) zoning will permit the proposed use with use on review approval and would be compatible with the adjoining office and institutional uses.

APPROVE C-1 (Neighborhood Commercial) zoning. Applicant requested C-3 (General Commercial). C-1 (Neighborhood Commercial) zoning is a more restrictive zone than the requested C-3 General Commercial) zone, but will permit use on review consideration for a Dollar Store on this site as a Dry Goods Store.

**COMMENTS:**

**NEED AND JUSTIFICATION FOR THE PROPOSAL**  
1. The NC (Neighborhood Commercial) One Year Plan designation allows a similar use intensity to the Office designation and provides a more compatible range of uses for the surrounding development than the requested GC (General Commercial) designation.  
2. The NC designation and C-1 zoning of the subject property will allow consideration of the proposed business under a use-on-review request and are consistent with the established development pattern of the area that includes residential, office, institutional and commercial uses.

**THE EFFECTS OF THE PROPOSAL**

1. Public water and sewer utilities are available to the site.  
2. Governor John Sevier Hwy. can accommodate the proposed traffic generated from the proposed use.

**CONFORMITY OF THE PROPOSAL TO ADOPTED PLANS**

1. This request represents a one lot extension of the sector plan designation which supports commercial on the adjacent property to the east.  
2. Approval of the One Year Plan NC or GC amendment for this property would be an expansion of the sector plan's Commercial designation.  
3. This site is located within the Urban Growth Area (inside the city) on the Knoxville-Knox County-Farragut Growth Policy Plan map.
