Dec 17, 2009

Dear sirs,

I am writing concerning the proposed tower on Hwy 549 like at Fountain City Road.

I am 85 yrs old and unable to attend the meetings to appose this tower.

This property has been in our family for over 100 yrs. My mother was born here and so was I.

This tower would be an eye sore to our beloved valley. This area is our home and we wish to keep it beautiful and peaceful.

Please consider finding another place for placing this tower. We wish to keep our homes tower free.

Thank you,

Mrs Anne M Blair

Good Morning MPC,

I would like to add the attached two pages of signatures to MPC Agenda #40 today, item 8-D-09-UR. We have collected signatures from another Homeowners Association directly affected by this cell tower. All signatures are against T-Mobile putting this tower in our small little valley, and I want to get this added to the application.

Staff recommendation is showing this to be tabled today – can you please tell me what that means?

Thanks,

Jennifer Weaver

Subject: case# 8-d-09-ur T-Mobile cell tower

I am writing this e-mail to lodge a complaint about the cell tower T-Mobile is trying to put up on the coner of Fountain City Rd. and Dry Gap. The site they are trying to place it on is in the middle of a residential area. I am very concerned about the detrimental effects this eye sore will have on the property values of the single family homes in this area. The site is also located down in a gully between a mountain not a very practical place for a cell tower. Could you please address my concerns with the commissioners on the MPC and ask them to vote against allowing T-Mobile to place their ugly eye sore in the middle of our beautiful residential area. Thanks for you time and attention on this matter!
