Bettyjo,

Thank you for your expert help regarding the public hearing for rezoning a property on Shoffner Lane in Halls. Thru you, as you suggested, I'm sending my request to the planning commission. Please forward this e-mail to the appropriate party.

Please deny the requested change to A (agricultural). As an adjoining property owner, I've been annoyed with these chickens presence in my flower beds all this year. This property owner seems to ignore the current zoning restrictions and is requesting the change to legalize what is already done. I see no reason to expect any different behavior with a change in zoning.

I would support, if it is possible to do, a variance allowing up to say 12 **confined** chickens on this property while it stays zoned RA

Thank You
