**Subject:** Re: Use on Review for Sherrill Hill Commercial - Revised Site Plan

Tom,

the feedback from the Homeowners are two concerns:

(a) Placement of the dumpster on the west side of Academy Sports is poor for noise.

(b) There are major water drainage concerns now which will get worse with the construction of the building and the parking lot. Several of the homeowners are experiencing lots of water on their property and some water in their home.

Larry Lowell, 7 Oaks Chair

I have a call into Cannon and Cannon, but no reply yet.

Larry,

I have a set of the revised site plan documents for the use on reiview application for Sherrill Hill, Item # 33 (Hughes Commercial Properties) on the Planning Commission's May 12, 2011 agenda. These are revisions to the documents you picked up last month for file # 5-C-11-UR. You can pick them up at any time at the front desk.  
You can pick them up at the front desk.

There is also a copy of the proposed master sign plan application for Sherrill Hill. Use on review application 6-E-11-UR under the name Kingston Pike, LLC. This will be considered at the June 9, 2011 meeting.

Tom
