Commissioner:

I'm requesting that a condition be added to the proposed concept plan for Copper Trace Subdivision, agenda item #12. Myself and a number of the homeowners in the Bakhom Subdivision would like to see a 35 foot wooded buffer added to the proposed concept plan along the line that adjoins our subdivision. In a prior concept plan that was approved on February 8, 2007, this buffer was a part of that plan. Please see the attachment for a copy of the plans approved in 2007 with the 35 foot wooded buffer shown. Also attached you will find the proposal that's been signed by a number of the Bakhom homeowners.

The majority of the property that adjoins the Bakhom subdivision is wooded with large hardwood trees. With this request we are trying to maintain the character of our neighborhood, and provide screening for our homes and the new ones to be built on the proposed development. The Bakhom Subdivision restrictions even contain a provision that no large trees 10 inches or more in diameter are to be removed unless they are within ten feet of a structure.

Should you have questions, I can be contacted during business hours at 690-1300, or after hours at 567-1758.

I would appreciate your support on this matter.

Thanks for your time!

Philip Ford

MPC Meeting – December 13, 2012
Agenda Item #12
Copper Trace Concept Subdivision Plan
Tax ID: 77 128, 128.01 & 128.02

The following property owners living in the Bakhom Subdivision request that a condition be added to the Copper Trace Concept Subdivision Plan. The property owners would like the 35 foot wooded buffer (no clearing or building allowed within this area) that was in the previous concept plan approved on February 8, 2007 to be added to the Copper Trace Concept Subdivision Plan. The proposed buffer would run inside the boundary line of the proposed development along the line that adjoins the Bakhom Subdivision.
