

MEMORANDUM

TO: Metropolitan Planning Commission
FROM: Mark Donaldson, Executive Director
DATE: June 14, 2012
SUBJECT: Consideration of the FY2012-13 MPC Composite Work Program
6-B-12-OB

REQUEST

Consideration of the proposed FY2012-13 MPC composite work program.

BACKGROUND

Each year, in conjunction with approval of the budget for the upcoming year (which was approved in May), MPC staff asks the planning commission to approve a proposed work program to provide an understanding of the staff work that has been included in budget considerations.

The work is organized in three basic categories:

- Prescribed services, which are services necessary to complete and report federal, state, or local requirements;
- Prescribed projects, which are projects necessary to complete and report federal, state, or local requirements; and
- Special projects, which are proposed in response to a specific, on-time or periodic need and are not required by law. Special projects are subdivided into those that are proposed for attention this year, and those that should be addressed, if time and resources are available.

ANALYSIS

For FY 2012-13, two-thirds of projected MPC revenue comes from grants and contracts, while only one-third is projected to come from local sources (city, county, and fees). As a result, more and more MPC staff resources are devoted to grant and contract work, and fewer resources are available for special projects of a local nature. MPC staff will be as responsive as possible to local requests for additional work, but staff commitments must be viewed within the context of required grant and contract work and deadlines.

STAFF RECOMMENDATION

Staff recommends approval.
