to me

My name is Anita Case. I am a member of the Inskip Community Association. I live at 1107 Henrietta Drive, Knoxville, TN 37912. I have lived in this house for about 28 years. I have raised two children here. I live in the area of the Inskip community that is being considered for rezoning from R2 to R1 or R1a. I strongly support rezoning to R1 status. The Inskip community at this time has far too many apartments and condominiums. Our community has lost much of it's original character due to this type of encroachment. There is too much traffic now due to the concentration of people living in our community, thus making Inskip much less walkable and creating far too much noise. In past years before there were so many apartments and condominiums, Inskip was far more peaceful and quiet. I have spoken to four other families living on Henrietta Drive near my home who strongly agree that our neighborhood should be rezoned to R1. Their house numbers are 1104, 1105, 1109 and 1114. If you need any additional information from me I can be reached at my home telephone number 865-688-3243. Sincerely, Anita Case.
