

CITY OF KNOXVILLE

Engineering
James R. Hagerman, P.E.
Director of Engineering

May 1, 2013

Mr. Mike Brusseau, AICP, Senior Planner
Knoxville-Knox County Metropolitan Planning Commission
City-County Building, Suite 403
Knoxville, Tennessee 37902

SUBJECT: MPC File # 5-A-13-SC: Closure of Town Center Blvd near CLT 154 98.11 and 154 98.07
City Block 51008

Mr. Brusseau:

The City Engineering Department has no objections to close the above described right-of-way areas provided the following conditions, subject to City Engineering approval, are met:

1. The owner shall complete the platting process to consolidate the closure areas into the adjoining properties and to accomplish the following subsequent items:
 - a. Dedicate easements for public use over the current sidewalks, which lie within the areas of the closure.
 - b. Agree to and define a "no construction restriction" in the closure areas.
 - c. Abandon any proposed/recorded Drainage and Water Quality Facility Easements to relocate and dedicate new Drainage and Water Quality Facility Easements, per the actual location of any applicable Drainage and Water Quality Facilities affected. This requirement is due to particular Drainage and Water Quality Facilities being built outside of current easement areas.
2. A maintenance agreement for the applicable sidewalk portions, over which the public easements are dedicated, shall be executed with the City of Knoxville before any plats will be accepted for recording.
3. Upon final approval by City Council, the applicant shall have one (1) year to complete these conditions. If the conditions are not met in the allotted time, this closure shall be deemed null and void and of no effect.
4. The closing ordinance shall state that this closure shall become effective only after the Engineering Department has provided written verification, to the City Recorder, that conditions have been satisfactorily met.
5. Should this right-of-way be closed, the City will reserve easements for all drainage facilities and utilities, if any, located in or within five (5) feet of the property described herein.

Sincerely,

Benjamin D. Davidson, PLS, Technical Services Administrator, Department of Engineering

Memorandum

Date: April 15, 2013
To: Mike Brusseau
From: Sonny Partin, Deputy Fire Marshal
Subject: Request for Information on Right of Way Closures, Fire Department Review

Road Name	Review Status	Comments
1. Town Center Blvd.	Approved	Retaining wall does not interfere with our access.

Knoxville Utilities Board

April 8, 2013

Mr. Mike Brusseau
Knoxville-Knox County
Metropolitan Planning Commission
Suite 403, City-County Building
Knoxville, Tennessee 37902

Dear Mr. Brusseau:

**Re: Right-of-Way Closure Request 5-A-13-SC
Block No. 51008
CLT No. 154
Parcel No. 98.07**

We have reviewed our records and find that we have existing utility facilities located within the subject right-of-way. The approximate location of these facilities is indicated on the enclosed prints. However, KUB does not release and hereby retains all easements and rights for existing utility facilities, whether or not shown on these prints.

Should this right-of-way be closed, KUB will require the following permanent easement for its utility facility.

Gas – 7.5 feet on each side of the centerline of the gas line, 15 feet total width
Gas – 12.5 feet on each side of the centerline of the gas line, 25 feet total width

So long as these conditions are met, KUB has no objection to the closure of this right-of-way. If you have any questions regarding this matter, please call me at (865) 558-2291.

Sincerely,

A handwritten signature in cursive script that reads 'Greg Patterson'.
