MPC Commissioners, I am writing to urge you to consider changing the drive entrance for the proposed assisted living facility from Northshore Drive to Tooles Bend Road. As a new resident to Knoxville, I have become very aware of the hazardous conditions entering and exiting Northshore Drive from the area where the proposed assisted living facility will be built. Visibility is very poor, and driving speeds are in excess of the posted speed (40), so unsafe conditions exist. Please do not approve adding another entrance so close to the existing subdivisions, compounding the unsafe conditions. Please use the existing Tooles Bend Road for the new facility access.

***subject:***

***Agenda Item 41, Applicant Daniel Levy, AIA, Assisted Living Facility , File # 8--  
F--13--UR***

*Please* consider changing the driveway entrance for the proposed assisted living facility from Northshore Drive to Toolles Bend Road. Doing this will be safer for traffic on Northshore, and vehicles going in and out of the assisted living facility will be readily accommodated via Toolles Bend.

*Thank you,*

***Crissy & Lynn, IV Sheeley***

My wife Irma E. Vázquez and I are residents of Cobblestone Park and want to address an issue of concern related to the above subject. Please consider changing the driveway entrance for the proposed assisted living facility from *Northshore Drive* to *Tools Bend Road*. The road curvature at the proposed driveway location and the addition of another close by entrance/exit to/from Northshore drive could represent a safety issue. Relocating the entrance to *Tooles Bend Road* will be safer for traffic on Northshore, and vehicles going in and out of the assisted living facility will be readily accomodated via Tooles Bend.

Thanks for you attention to this matter. Sincerely,

Freddie N. Vázquez
