Sirs,

I understand that you will soon be considering approval for a new Dollar General store along W John Sevier Hwy, in close proximity to the existing senior center.

Having observed the recently constructed D-G store on East JS Hwy, I find it aesthetically appropriate to its surroundings.

A similar structure at the new location would be equally acceptable.

I urge you to approve the new proposal under the following conditions, which mirror those of the existing store:

1. That the facads visible from adjacent streets be entirely brick-clad.
2. That the D-G sign be relatively low profile, and erected on a brick base.

Thank you for considering my thoughts on the matter.

Sincerely,
Al Tuinman
