Commission members:

As residents of 1611 Murray Drive since 1978, and also 1617 Murray Dr. we are going to be opposed to the four (4) parcels on Murray Drive. Agenda number (7-17-SP).

Along with our neighbors, we believe the proposed apartments would be completely out of character in this area.

Most of the area is single family and farm land.

The roads are so narrow it is difficult for 2 cars to pass, and school buses are a danger to everyone should you happen to meet one on the road. Lots of people have run off the road or been pulled out of the ditches.

We certainly do not need or want additional traffic on roads that have hills, winding, narrow and blind curves and are so dangerous. It is not regulation size to even get marked.

I would invite each of you to come to these roads and drive this area before you decide, please, especially if you even think about considering this idea.

Please help our neighborhood stay as it is, that is why people invested and settled on the roads that we live on

Sincerely,

Charles Jack and Mae G. Moody

Terry M. McGill and Cody J. McGill
