Subject: North City Sector Plan Amendment

STAFF RECOMMENDATION:

RECOMMEND that City Council and County Commission APPROVE an amendment to the North City Sector Plan.

BACKGROUND:

The North City is one of the last two sector plans that still depict the Slope Protection Area and Stream Protection Area as base districts and not mapping overlays. In order to make all the sector plans consistent and to give more predictability on zoning decisions, MPC staff is proposing this amendment as part of a map modernization project.

The methodology used to amend the proposed land use map, included the following steps:

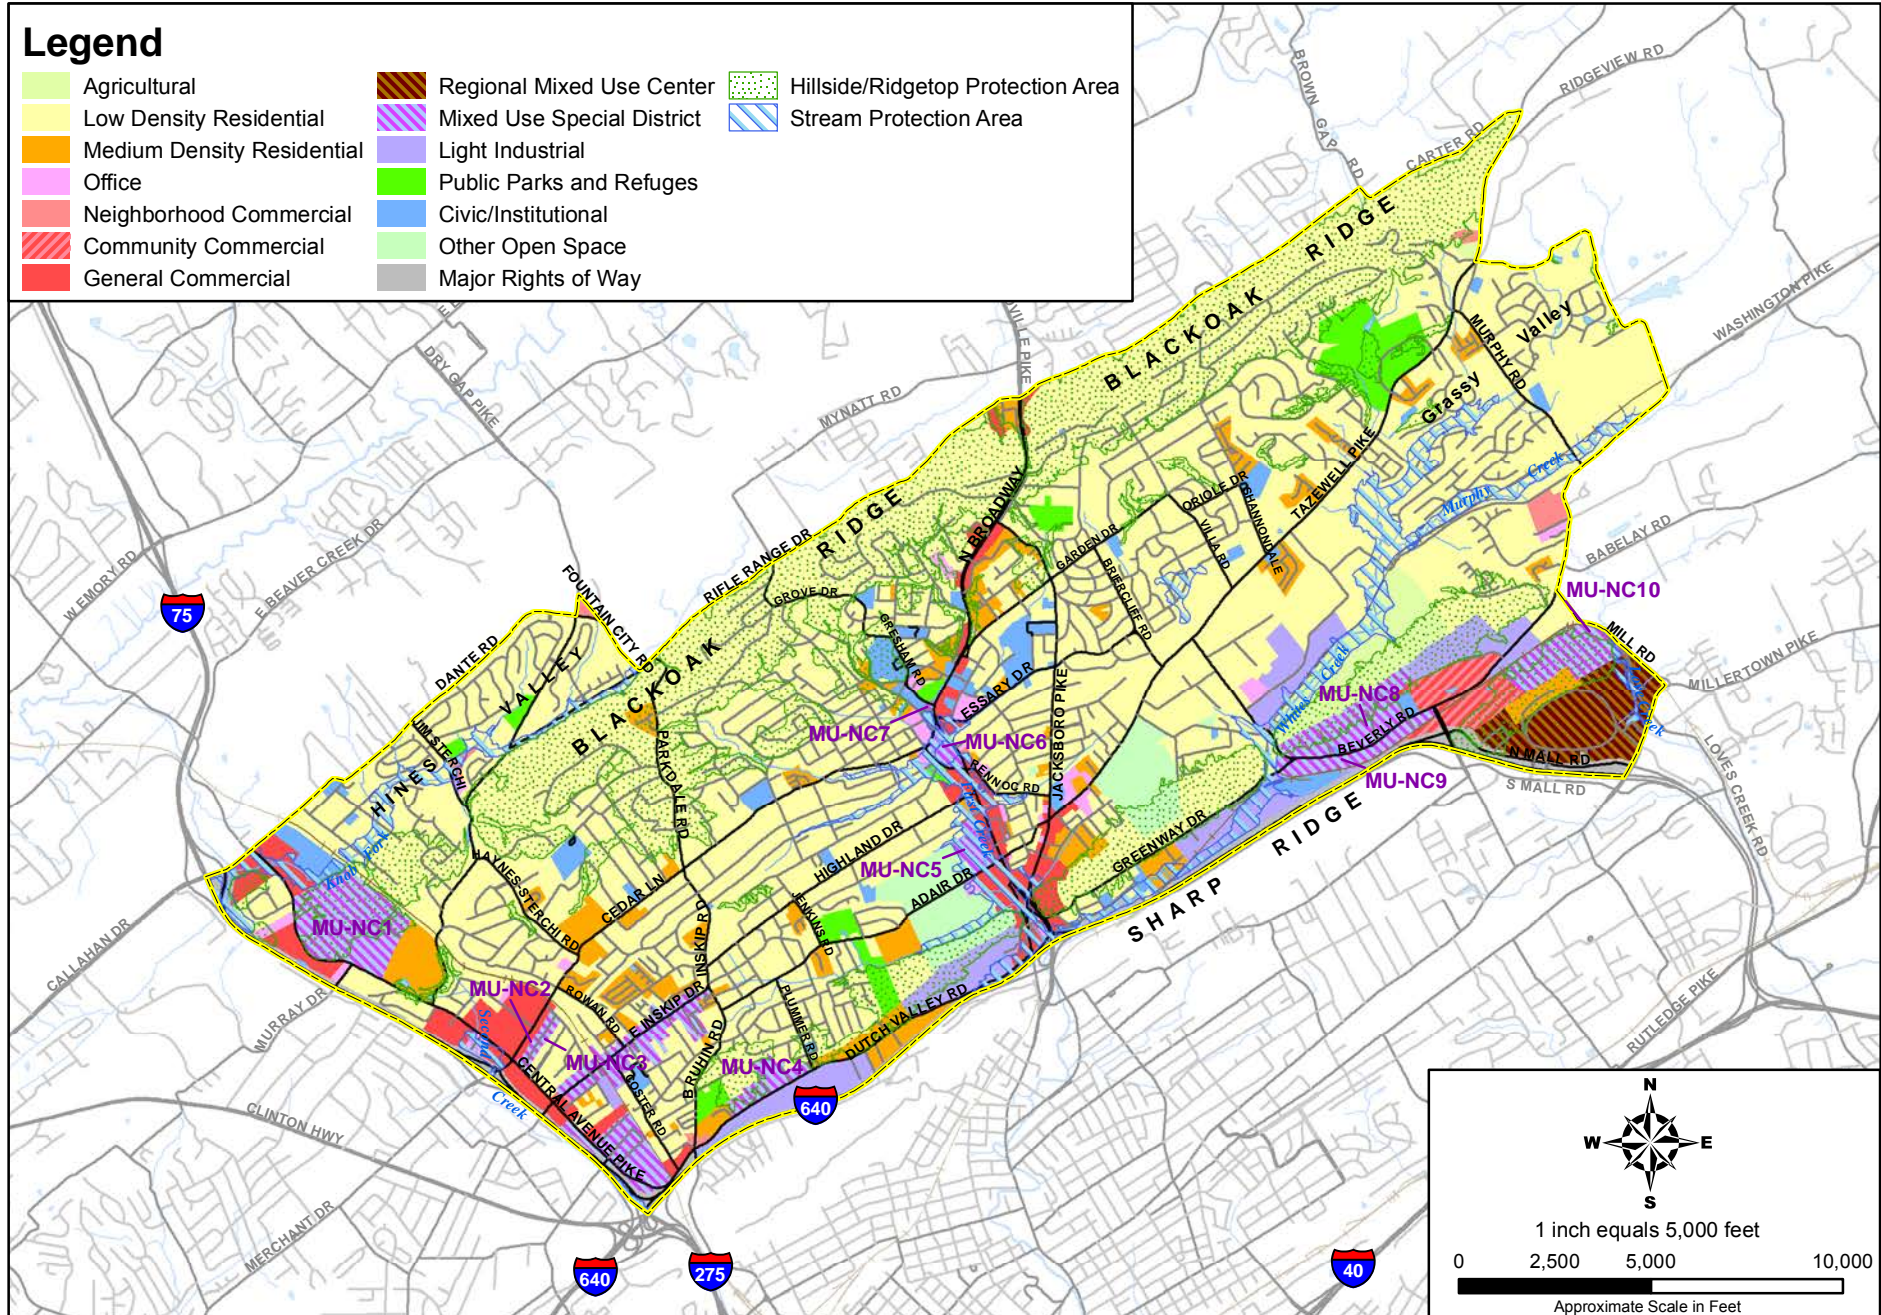

- Removing the old Slope Protection Area and Stream Protection Area data;
- Assigning base land use designations for those areas;
- Adding the current Hillside and Stream Protection Areas as mapping overlays; and
- Making several small modifications to make the sector plan match existing uses of property.

Staff discussed this proposed amendment during the three February One Year Plan meetings and a separate meeting held on March 1st to specifically discuss this amendment. Over sixty people attended these four meetings. The following resources were used to help solicit public input; online news article, press release, and interactive mapping.

SCHEDULE:

If approved by the Metropolitan Planning Commission, the plan update will be scheduled for adoption by the Knoxville City Council on May 8 and May 22, 2018; and by the Knox County Commission on May 29, 2018.
