Hello Jeff,

KCDC/City wishes to withdraw the closure application for Whedbee Dr (10-C-18-SC) as it has been determined that that this area is not needed for the proposed project and would be beneficial to remain as an open, public, improved right-of-way.

Becky, I am copying you on this as the request to withdraw this closure will have to be verbally made to the commission at the public meeting today.

Sincerely,

Benjamin D. Davidson, PLS
