▶ **NUMBER OF LOTS:** 32

SURVEYOR/ENGINEER: LeMay & Associates

ACCESSIBILITY: Access to Autumn Walk Subdivision is via Dry Gap Pk., a collector street with a pavement width of 19' to 22' within a right-of-way that varies in width from 40' to 80'. This proposed phase of the Subdivision will be provided access via an internal link with Rocky Plains Ln. which is a public street with a pavement width of 26' within a 50' wide right-of-way.

▶ **SUBDIVISION VARIANCES REQUIRED:** None

STAFF RECOMMENDATION:

▶ **APPROVE the Concept Plan subject to 8 conditions:**

1. Implementation of the recommendations outlined in the Traffic Impact Study prepared by Fulghum MacIndoe & Associates Inc, as last revised on August 4, 2018, and as approved by the Knox County Department of Engineering and Public Works and Planning Commission staff. The required right turn lane from Dry Gap Pike to Autumn Path Ln. shall be installed meeting the requirements of the Knox County

Department of Engineering and Public Works before a final plat for this phase of the subdivision is submitted for consideration by the Planning Commission.

2. Any further subdivision of this property beyond this fourth phase will require a second vehicular access for the subdivision.
3. Provision of a street name which is consistent with the Uniform Street Naming and Addressing System within Knox County (Ord 91-1-102).
4. Installation of all sidewalks as identified on the concept plan. Sidewalks shall meet all applicable requirements of the Americans with Disabilities Act (ADA) and the Knox County Department of Engineering and Public Works. A bond shall be provided to the Knox County Department of Engineering and Public Works by the developer in an amount sufficient to guarantee the installation of the sidewalks.
5. With the extension of Rocky Plains Lane, the existing cul-de-sac turnaround will have to be modified to the standard street section as required by the Knox County Department of Engineering and Public Works.
6. Meeting all applicable requirements of the Knox County Department of Engineering and Public Works.
7. During the design plan stage of the subdivision, obtaining approval from the United States Postal Service of the centralized mail delivery system to be used for this phase of the subdivision. Documentation of the approved system shall be submitted to Planning Commission staff prior to final plat approval.
8. Submitting to Planning Commission staff prior to final plat review by the Planning Commission, the certification of design plan approval form as required by the Knoxville-Knox County Subdivision Regulations.

► **APPROVE the Development Plan for up to 32 attached residential units on individual lots, subject to 1 condition.**

1. Meeting all applicable requirements of the Knox County Zoning Ordinance.

With the conditions noted, this plan meets the requirements for approval in the PR zone and the other criteria for approval of a Use on Review.

COMMENTS:

The applicant is proposing to develop this 9.97 acre tract with 32 attached residential lots as an additional phase of Autumn Walk Subdivision. This phase of the Subdivision will connect to Rocky Plains Ln. an existing public street within the Subdivision. The Subdivision is served by only one street connection out to Dry Gap Pk. With this proposed phase of the subdivision, there will be a total of 148 lots. Staff is recommending a condition that any further subdivision of this property beyond this fourth phase will require a second vehicular access for the subdivision.

The Planning Commission recommended approval of the rezoning of this property to PR (Planned Residential) at a density of up to 4.5 du/ac on June 14, 2018 (6-J-18-RZ). The Knox County Commission approved the rezoning request to PR (Planned Residential) at a density of up to 4.5 du/ac on August 27, 2018.

The traffic study that was approved for Phase 3 of the subdivision had identified the need for left and right turn lanes into the development on Dry Gap Pike. While the left turn lane has been installed, the right turn lane has not. The traffic impact study that was submitted with this new phase of the subdivision still identifies the need for the right turn lane. Staff has recommended the condition that the right turn lane be installed prior to the submission of a final plat for this phase.

EFFECT OF THE PROPOSAL ON THE SUBJECT PROPERTY, SURROUNDING PROPERTY AND THE COMMUNITY AS A WHOLE

1. The proposed subdivision will have minimal impact on local services since water and sewer will be provided to this site.
2. The proposed attached residential subdivision at a density of 3.21 du/ac, is consistent in use and density with the approved rezoning of the property.
3. The low density residential zoning and development is compatible with the scale and intensity of recent development that has occurred in this area.
4. The proposed right turn lane that will be built as part of this phase of the subdivision will improve the traffic flow on Dry Gap Pk. and will help to improve traffic safety.

CONFORMITY OF THE PROPOSAL TO CRITERIA ESTABLISHED BY THE KNOX COUNTY ZONING ORDINANCE

1. The proposed attached residential subdivision with the recommended conditions meets the standards for development within a PR Zone and all other requirements of the Zoning Ordinance.
2. The proposed subdivision is consistent with the general standards for uses permitted on review: The

proposed development is consistent with the adopted plans and policies of the General Plan and Sector Plan. The use is in harmony with the general purpose and intent of the Zoning Ordinance. The use is compatible with the character of the neighborhood where it is proposed. The use will not significantly injure the value of adjacent property. The proposed subdivision will not draw significant traffic through residential neighborhoods.

CONFORMITY OF THE PROPOSAL TO ADOPTED PLANS

1. The North County Sector Plan designates this property for low density residential use. The PR zoning approved for the property allows consideration of up to 4.5 du/ac . The proposed subdivision with its density of 3.21 du/ac is consistent with the Sector Plan and the approved zoning designation.
2. The site is located within the Planned Growth Area on the Knoxville-Knox County-Farragut Growth Policy Plan map.

ESTIMATED TRAFFIC IMPACT: A traffic impact study was prepared by the applicant. The findings of that study were used in formulating the recommendations of this staff report.

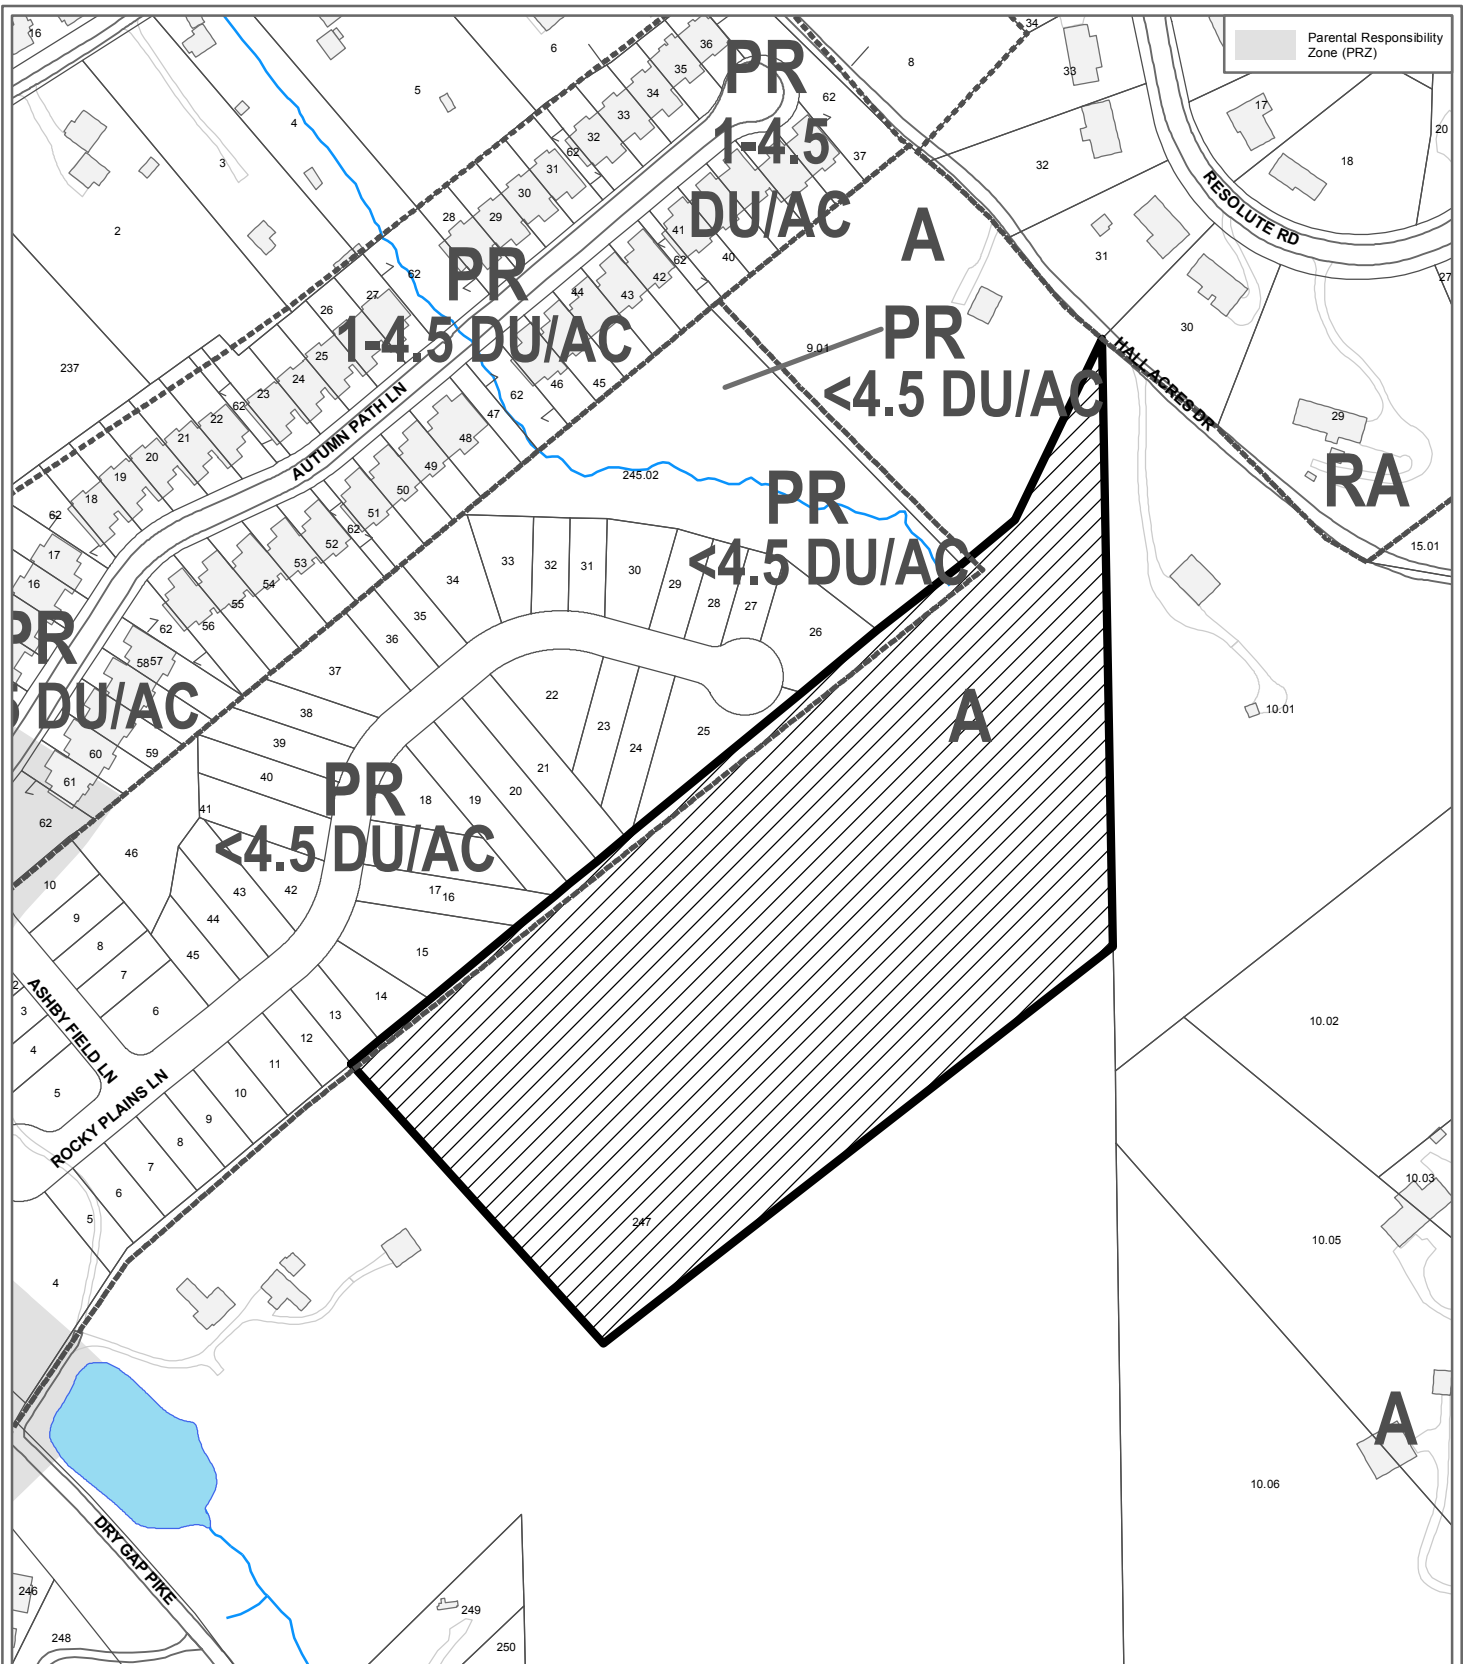

ESTIMATED STUDENT YIELD: 2 (public school children, ages 5-18 years)

Schools affected by this proposal: Brickey-McCloud Elementary, Halls Middle, and Central High.

- School-age population (ages 5–18) is estimated by MPC using data from a variety of sources.
- Students are assigned to schools based on current attendance zones as determined by Knox County Schools. Zone boundaries are subject to change.
- Estimates presume full build-out of the proposed development. Build-out is subject to market forces, and timing varies widely from proposal to proposal.
- Student yields from new development do not reflect a net addition of children in schools. Additions occur incrementally over the build-out period. New students may replace current population that ages through the system or moves from the attendance zone.

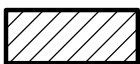

MPC's approval or denial of this concept plan request is final, unless the action is appealed to Knox County Chancery Court. The date of the Knox County Chancery Court hearing will depend on when the appeal application is filed.

MPC's approval or denial of this use on review request is final, unless the action is appealed to the Knox County Board of Zoning Appeals. The date of the Knox County Board of Zoning Appeals hearing will depend on when the appeal application is filed.

REQUIRED SIGN POSTING AGREEMENT FORM

For all rezoning, plan amendment, concept plan, use on review, BZA variance, right-of-way closure, and street name change applications, a sign must be posted on the subject property, consistent with the adopted MPC/BZA Administrative Rules and Procedures. MPC staff will provide a sign to post on the property at the time of application.

LOCATION AND VISIBILITY

The sign must be posted in a location that is clearly visible from vehicles traveling in either direction on the nearest adjacent/frontage street. If the property has more than one street frontage, then the sign should be placed along the street that carries more traffic. MPC staff may recommend a preferred location for the sign to be posted at the time of application.

TIMING

The sign must be posted no later than **two weeks prior** to the scheduled MPC or BZA hearing and must remain in place until after the meeting. In the case of a postponement, the sign can either remain in place or be removed and reposted no later than two weeks prior to the next MPC or BZA meeting.

MPC staff will provide the first sign(s) for no additional charge as part of the application fees. If the sign(s) go missing for any reason and need to be replaced, then the applicant will be responsible for picking up a new sign(s) from the MPC offices. The applicant will be charged a fee of \$10 for each replacement sign.

I hereby agree to post the sign provided on the subject property on or before

June 27, 2018

consistent with the guidelines provided above; and to **remove the sign within one week after** the MPC or BZA decision.
