

## PLANNED DEVELOPMENT PRELIMINARY PLAN

▶ FILE #: 5-A-20-PD AGENDA ITEM #: 44

AGENDA DATE: 5/14/2020

► APPLICANT: LOGAN HIGGINS

OWNER(S): Jim English

TAX ID NUMBER: 109 K G 023 View map on KGIS

JURISDICTION: City Council District 1

STREET ADDRESS: 4333 Galbraith School Rd.

► LOCATION: Northeast side of Galbraith School Rd., east of Scarlett Ln.

► APPX. SIZE OF TRACT: 2.6 acres

SECTOR PLAN: South City

GROWTH POLICY PLAN: N/A

ACCESSIBILITY: Access is via Galbraith School Rd., a local street with a 25' pavement width

within a 50' right-of-way.

UTILITIES: Water Source: Knoxville Utilities Board

Sewer Source: Knoxville Utilities Board

WATERSHED: Baker Creek

ZONING: RN-1 (Single-Family Residential Neighborhood)

► EXISTING LAND USE: Vacant building

► PROPOSED USE: Adaptive reuse of the Galbraith School building

HISTORY OF ZONING: None noted.

SURROUNDING LAND North: Public-Quasi public / INST (Institutional)

USE AND ZONING: South: Houses / RN-1 (Single-Family Residential Neighborhood)

East: Public-Quasi public / INST (Institutional)

West: Houses / RN-1 (Single-Family Residential Neighborhood) & RN-2

(Single-Family Residential Neighborhood)

NEIGHBORHOOD CONTEXT: This area is developed with single-family houses in the RN-1 & RN-2 zones,

and adjacent to South-Doyle Middle School in the INST zone.

#### STAFF RECOMMENDATION:

► Approve the preliminary plan for the Galbraith School Adaptive Reuse planned development, including approval of the requested exceptions to the underlying zoning's dimensional and use standards, subject to 3 conditions:

- 1. Upon approval of the preliminary plan by City Council, a final plan shall be submitted for review and approval by the Planning Commission. The final plan shall be in substantial compliance with the approved preliminary plan.
- 2. The Principal Use Standards of section 9.3 of the City of Knoxville zoning ordinance apply to all applicable

AGENDA ITEM #: 44 FILE #: 5-A-20-PD 5/8/2020 08:30 AM MIKE REYNOLDS PAGE #: 44-

uses unless otherwise specified within the Galbraith School Adaptive Reuse document.

3. No signs shall be internally illuminated and the permitted detached sign shall be no taller than 6 feet and no greater than 36 square feet in area.

#### **COMMENTS:**

#### **Project Description**

This proposal is for an adaptive reuse of the former Galbraith School building with a mix of residential, office, commercial, and small-scale industrial uses. The goals for this Planned Development are to become a key part of commerce in South Knoxville by becoming a satellite to the existing commercial corridor of Chapman Hwy and to the proposed site of Baker Creek Bottoms; to serve the community by promoting spaces for key tenants such as artist studios, art galleries, a community center, and/or a day care; and to preserve and grow the natural landscape and become a Wildlife Habitat Certified member of the South Woodlawn Neighborhood Association.

#### Zoning Exception Requests

Exceptions to the underlying zoning's dimensional and use standards may be recommended by the Planning Commissions and approved by the City Council as part of the Planned Development approval process. The existing (underlying) zoning for this property is RN-1 (Single-Family Residential Neighborhood) and in order to allow the proposed use of the site, the applicant is requesting exceptions to the RN-1 district regulations as outlined in detail in the attached Galbraith School Adaptive Reuse document.

A summary of the requested exceptions from the City of Knoxville Zoning Code is listed below:

- 1. Modification of the allowed uses based on the C-N district uses.
- 2. Modification of the dimensional standards based on the C-N district standards (see page 5 of the Preliminary Plan).
- 3. Modification of the design standards based on the C-N district standards (see page 6 of the Preliminary Plan).
- 4. Modification of the building material restrictions based on the C-N district standards (see page 6 of the Preliminary Plan).
- 5. Modification of the sign standards based on the C-N sign standards (see page 7 of the Preliminary Plan).

The community benefits identified by the applicant to justify the requested exceptions from the City's Zoning Code are:

- 1. Preservation of historic features and adaptive reuse of existing buildings.
- 2. Community gathering spaces and amenities including plazas, public art, formal gardens, places to congregate, and pedestrian and transit facilities.

The applicant describes the community benefits in the project overview and their response for how the Planned Development meets the seven intent statements of the planned development regulations. The proposed uses and development regulations are primarily based on the C-N (Neighborhood Commercial) zone district which is intended to be used in and adjacent to existing residential neighborhoods. The proposal will allow the reuse of the former school building in a flexible manor that is complimentary to the surrounding neighborhood.

The Site Plan (page 9) and Floor Plan (page 10) are conceptual and will be presented in more detail during the Final Plan review process. These plans must show that the development meets the standards of the Planned Development and other applicable City zoning and land development regulations.

Because this site is located within an established residential neighborhood, staff is recommending that all signage have no internal illumination and that the permitted detached (monument) sign be no more than 6 feet tall and 36 square feet in area. This is more consistent with the standards for other non-residential uses in residential zones, however, does allow for additional attached (wall, hanging, etc.) signs that the C-N zone allows but would not be permitted in the RN-1 zone.

The project appears to provide community benefits warranting the requested exceptions to the development standards of the underlying zoning.

OLD NORTH KNOXVILLE

EDGEWOOD PARKRIDGE

# Galbraith School

# Adaptive Re-use

U

S

Е

### **Overview**

The plan is to redevelop the old Galbraith School at 4333 Galbraith School Road into a multi-use building that benefits the neighborhood by strengthening the economy with key tenant spaces such as office space, artist studios, day care facility, restaurant, brewery, art galleries, and/or retail. Providing space for businesses like these creates a space for the community of South Knoxville/South Woodlawn to come together. This building currently sits vacant, and though the owners have worked to maintain it, an empty building of this size does not provide to its community in the way that it truly can.

Because the building is currently zoned as Single-Family Residential Neighborhood (RN-1), it cannot become what it needs to be. In fact, the owners have not been able to get commitments from any realtors or tenants and have received comments such as "come talk to us when you have the zoning in place". To take care of this, we are submitting the Galbraith School as a Planned Development (PD), which allows for more creative and flexible development.

Our steps to achieve the Planned Development will be:

- Step 1 Achieve approval of the Preliminary Plan by both the Knox County Planning Commission and the City Council
- Step 2 Find tenants or partners who agree to sign on to move in
- Step 3 Adjust plan to fit the needs of these tenants/partners, while maintaining alignment with the Preliminary Plan and conditions provided by the Planning Commission and City Council
- Step 4 Achieve approval of the Final Plan with the Knox County Planning Commission
- Step 5 Complete the necessary updates to the Galbraith School and have tenants move in

In the next section, we will demonstrate the benefits of Planned Development for the Galbraith School Building.

### **Planned Development**

The following seven statements (in black) are the intentions of Planned Developments according to the Knoxville City Zoning Code. Our comments on how we plan to achieve each of these are below each line (in blue).

- 1. Encourage flexibility in the development of land and in the design of structures.
  - Because this is an older building, we are mostly proposing to keep the building footprint as is and to allow for flexibility within the walls of the building and on the grounds.
- Encourage a creative approach to the use of land that results in better development and design than might otherwise be accomplished under the strict application of other sections of this Code.

G

- The existing Commercial Districts we could seek to rezone to either provide too many or not enough restrictions. Because this building is in a residential area, we want to tailor the uses to this neighborhood while prohibiting use that would be disturbing to neighbors.
- 3. Allow for the design of developments that are architecturally and environmentally innovative, and that achieve better utilization of land than is possible through strict application of standard zoning controls.
  - Architecturally, we are proposing to work with the existing architecture and enhance it's charm. Environmentally, reviving this old building and its grounds will save cost, material, and environmental harm.
- 4. Combine and coordinate architectural styles, building forms, and structural/visual relationships within an environment that allows mixing of different uses in an innovative and functionally efficient manner.
  - Because this building is of such a size and has many different entrances and exits, it is already in a great place to allow mixing of different uses. The revitalization will come through enhancing materials, and provided comfortable, sustainable spaces for tenants.
- 5. Provide for the efficient use of land to facilitate a more effective arrangement of land uses, structures, circulation patterns, and utilities.
  - The proposition of new uses for the courtyard, ground gardens, and parking area provide for a more efficient site, as seen on the plan and site plan.
- 6. Encourage land development that, to the greatest extent possible, preserves natural vegetation, respects natural topographic and geologic conditions, and refrains from adversely affective flooding, soil, drainage, and other natural ecologic conditions.
  - The South Woodlawn Neighborhood Association (SWNA) already has a thriving wildlife
    habitat program and the Galbraith School is proposing to become a part of that by
    revitalizing the gardens and complying with the criteria provided by SWNA.
- 7. Facilitate the implementation of the adopted Knoxville-Knox County General Plan and its component parts, including adopted sector plans, corridor plans, and related documents, particularly with respect to areas planned for potential redevelopment.
  - We believe the revitalization of the Galbraith School to provide space for community, local retail, artist exposure, and respite to local hikers/mountain bikers is in keeping with the General Plan's Vision Statement that "Knoxville and Knox County are attractive places to live, work and play"!

To concisely reiterate, our main goals for this Planned Development are:

- To become a key part of commerce in South Knoxville by becoming a satellite to the existing commercial corridor of Chapman Hwy and to the proposed site of Baker Creek Bottoms.
- To serve the community by promoting spaces for key tenants such as artist studios, art galleries, a community center, and/or a day care (the possibilities are endless!).
- To preserve and grow the natural landscape and become a Wildlife Habitat Certified member of the South Woodlawn Neighborhood Association.

In order to accomplish the above goals, we are proposing that the Zoning Uses and Dimensional Standards be altered as part of this Planned Development. Under the current zoning of RN-1, the Galbraith School Building is limited to a single-family residence, a duplex, and a few community uses. Because of the size of the existing building and lot, this use is unrealistic. We are very aware that the Galbraith School building is neighbored by many single-family residences and we would like to be cognizant of that. The most strict commercial zoning would be C-N or Neighborhood Commercial. This prohibits many uses that would be disturbing to residential areas. However, the maximum gross floor area restriction of 5,000 SF does not allow the Galbraith School to accommodate the commercial uses it has potential for. For this reason, we are using the C-N zone as a "precedent". On the next two pages, you can see the Use and Dimensional Standard charts of the existing zone (RN-1), the precedent zone (C-N), and of our proposed Planned Development zone (PD). The maps and plans on the remaining pages help to narrate the potential the Galbraith School Building has.

## <u>Uses</u>

| PRINCIPAL USE            | RN-1 | C-N | PD       |

#### Key:

RN-1 = Current Zone
C-N = Precedent Zone
PD = Proposed Planned
Development
P = Permitted Use
S = Special Use

#### \*Exceptions/Additions:

**Dwelling - Above the Ground Floor:** to be changed to Dwelling - On Any Floor

#### **Live Entertainment - Secondary**

**Use:** Live Entertainment shall not be permitted outdoors after 8 PM. Live Entertainment, (Indoors or Outdoors, Amplified or Non-Amplified), shall not be audible for a distance of 50 ft or more from the property line from which the noise emanates between the hours of 8 PM and 8 AM.

## Temporary Uses Allowed in Planned Development:

Farmer's Market Farmstand Mobile Food Units (MFUs) and Mobile Food Vendors Tents

## **Dimensional Standards**

#### Existing (RN-1, Zoning Code Table 4-1)

| X                             | RN-1                                 |
|-------------------------------|--------------------------------------|
| Bulk                          |                                      |
| Minimum Lot Area              | SF: 10,000 sf                        |
|                               | 2F: 15,000 sf                        |
|                               | Nonresidential: 20.000 sf            |
|                               |                                      |
| Maximum Lot Area              | N/A                                  |
| Minimum Lot Width             | 75'                                  |
| Maximum Building Height       | 35'                                  |
| Maximum Building Coverage     | 30%                                  |
| Maximum Impervious Surface    | 40%                                  |
| Setbacks                      |                                      |
| Minimum Front Setback         | +/- 10' of the average of blockface; |
|                               | in no case less than 25'             |
| Minimum Interior Side Setback | 8' or 15% of lot width, whichever is |
|                               | less; in no case less than 20'       |
|                               | combined                             |
|                               | Nonresidential: 20% of lot width     |
| Minimum Corner Side Setback   | 15'                                  |
|                               | Nonresidential: 25'                  |
| Minimum Rear Setback          | 25'                                  |

## **Design Standards & Building Material Restrictions**

#### C-N Design Standards, Zoning Code Table 5-2

|  | C-N | PD |             |
|--|-----|----|-------------|
| Façade Design  |     |    |             |
| Building façades that abut a public right-of-way, excluding alleys, must not contain blank wall areas that exceed 30 linear feet, measured per story parallel to the street.   | •   | •  |             |
| Building façades in excess of 100 linear feet that abut a public right-of-way, excluding alleys, must include a repeating pattern with no less than two of the following elements: texture change, material module change, or a wall articulation change of no less than 2 feet in depth or projection. such as a reveal, pilaster, or projecting rib. All elements must repeat at intervals of no more than 50 linear feet. |     |    | * c e S     |
| All buildings must have a public entrance from the sidewalk along the primary building frontage. Public entrances must be visually distinctive from the remaining portions of the façade along which they are located.   |     | •  |             |
| Building materials and visual elements used on the primary building frontage must continue on all building façades that are visible from a public right-of-way.  | •   | •  |             |
| Fenestration Design  |     |    |             |
| The ground floor of the front façade must maintain a minimum transparency of 30%, measured between two and ten feet in height.   | •   | •  | *<br>a<br>p |
| Upper floors of the front façade must maintain a minimum transparency of 15% of the wall area of the story   |     | •  |             |
| Commercial Site Design   |     |    |             |
| Sites must be designed to ensure safe pedestrian access from the public right-<br>of-way, and safe pedestrian circulation within the development.  |     | •  |             |
| A cohesive character must be established through the use of coordinated hardscape (paving materials, lighting, street furniture, etc.) and landscape treatments within the development.  |     | •  |             |
| Outlot buildings must meet the minimum transparency requirements of the district along façades facing the street.  |     |    |             |
| Any outlot buildings must include prominent entrances oriented toward both the street and the interior parking lot.  |     |    |             |
| Outlot buildings that are part of a multi-tenant retail center must provide definition along the street frontage of the center by placement of the front building line within 0' to 30' of the front lot line. Outlot buildings may be placed within a required setback to comply with this standard.  |     |    |             |

#### Key:

C-N = Precedent Zone
 PD = Proposed Planned
 Development
 Standard is Applicable

\*Do not believe that this standard is conducive to creating harmony with the existing architecture of the Galbraith School Building.

\*Because the main floor of the Galbraith Building is not at ground level, this standard shall apply to the floor plan labeled "Main Level" on pg 9 of this document.

#### The Planned Development shall comply with the commercial Building Material Restrictions listed below:

#### B. Building Material Restrictions

In the C-N, C-G-2, C-G-3, C-H-2, C-R-2, and O Districts, the following building materials are prohibited on any façade facing a public right-of-way, excluding alleys, or any façade that abuts a residential district. Such materials may still be used as decorative or detail elements for up to 25% of the façade, or as part of the exterior construction that is not used as a surface finish material.

- 1. Concrete Plain concrete masonry units (CMU);
- 2. Aluminum, steel or other metal sidings; this restriction does not include metal architectural wall panels;
- 3. Exposed aggregate concrete wall panels;
- 4. T-111 composite plywood siding;
- 5. Plastic;
- 6. Vinyl.

## **Sign Standards**

#### Existing (RN-1, Zoning Code 13.9D)

- D. Residential Districts: EN, RN-1, RN-2, RN-3, RN-4, RN-5, RN-6, and RN-7
  - 1. In the residential districts, the following signs on a residential parcel or lot are allowed, subject to the following dimensional requirements:
    - a. For properly approved home occupations, one wall sign with a maximum sign area of two square feet. Such signs cannot be illuminated.
    - b. Wall signs for multi-family dwellings, rooming and boarding houses, and fraternity and sorority houses with a maximum total sign area of nine square feet per structure; such sign are limited to only the name and/or address of the premises, and the name of the management. Such signs may be externally illuminated, but cannot be internally illuminated.
    - c. Monument or column signs for multi-family dwellings on sites greater than two acres, mobile home parks, and subdivisions with more than 25 lots for residential purposes; provided that such signs are limited to one sign per each separate street frontage that exceeds 150 lineal feet; cannot exceed a maximum sign area of 36 square feet and a maximum height of six feet; and may be externally illuminated, but cannot be internally illuminated.
  - In residential zone districts, the following signs on a nonresidential parcel or lot are allowed, subject to the following dimensional requirements:
    - a. For medical facilities with less than 150 linear feet of street frontage, clubhouses for civic or nonprofit organizations, lodge halls, studios and day care centers for more than 12 children:
      - i. Non-illuminated attached signs, excluding window signs, up to a maximum total sign area of 16 square feet.
      - ii. One monument or column sign with a maximum sign area of 20 square feet, and a maximum height of five feet. Such sign may be externally illuminated, but cannot be internally illuminated.
    - For medical facilities with 150 linear feet or more of street frontage, churches, schools, public buildings, cemeteries and country clubs:
      - i. Non-illuminated attached signs, excluding window signs, with a maximum total sign area of 32 square feet.
      - ii. One monument or column sign with a maximum total sign area of 36 square feet, and a maximum height of six feet. Such sign may be externally illuminated, but cannot be internally illuminated.

#### Precedent (C-N, Zoning Code 13.9F)

- F. Commercial, Industrial, and Institutional Districts: C-N, C-G, C-H, C-R, DK, I-MU, I-RD, I-G, I-H, INST
  - In the commercial, industrial, and institutional districts, the following signs on a nonresidential parcel or lot are allowed, subject to the following dimensional requirements:
    - a. Development directory and project directional signs may be approved as part of a master sign plan.
    - b. Attached signs with a total allowed sign area equal to 10% of the wall area of the primary building elevation(s), and such sign area may be used on any elevation of the building.
    - c. Detached signs in accordance with the standards described herein, except that standards specified for individual districts control.
  - 2. In the commercial, industrial, and institutional districts, the number of detached signs on a nonresidential parcel or lot are allowed in accordance with the following requirements:
    - a. One detached sign is allowed per street frontage, up to a maximum of two per parcel or lot. For these purposes, an adjacent interstate highway is considered a street frontage, even if there is no access to it.
    - b. The detached sign that is oriented to the street frontage on which the parcel is addressed is deemed primary and subject to the requirements of this subsection.
    - c. Any secondary detached sign on each lot is limited to a monument or column sign with a maximum sign area of 32 square feet and a maximum sign height of eight feet.
  - In the commercial, industrial, and institutional districts, the maximum sign height for primary detached signs is based upon the classification of the road or road adjacent to the property upon which the primary detached sign is located, as indicated in Table 13-2:
     Roadway Type and Maximum Sign Height: \*see code for continued information...

#### **Proposed** (Planned Development)

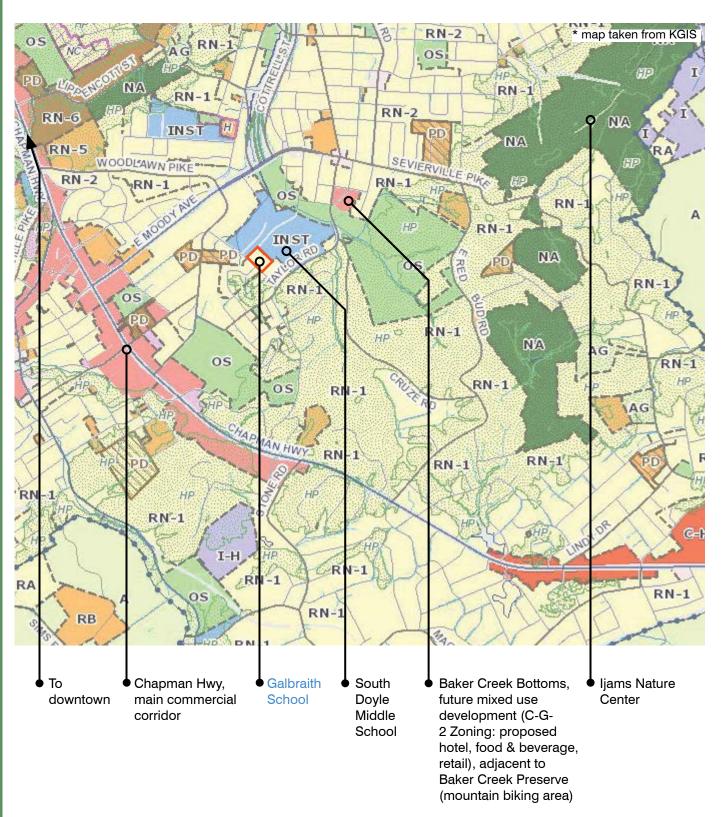

Planned Development signs to comply with standards in Zoning Code Article 13. Specific sign requirements for the Planned Development shall comply with those for the C-N district in Zoning Code 13.9F.

Additional signs permitted in courtyard of Galbraith School Building: 1 sign limited to 4 square feet per tenant that abuts the courtyard.

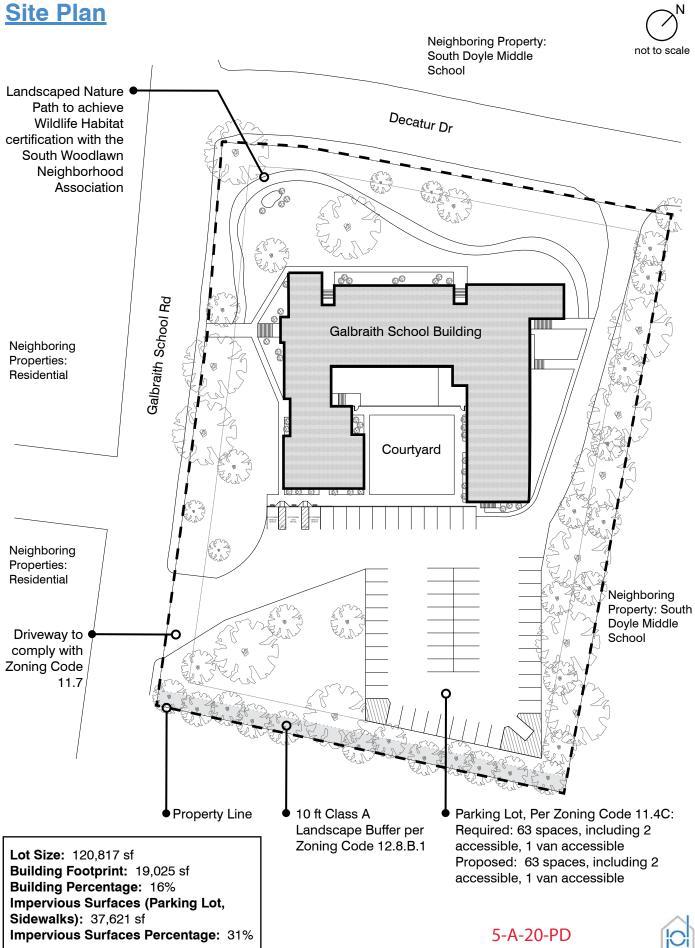

## **Vicinity Map**

Revised: 5/7/2020

**Floor Plan** Revised: 5/7/2020 Decatur Dr not to scale Galbraith School Rd Main Level Courtyard **Existing Plan:** The floor plan shown here is the floor plan as it exists today. Because this project is a mixed use project that will be rented to individual tenants, we can currently only speculate the types of tenants that may best occupy this space based on our proposed zoning of C-N (Neighborhood Commercial). The color overlays on the plan help to break the building into easily rentable sections (1-6). Our Proposed Tenant Scenario (below) is only one of the configurations of how this ∟ower Level

5-A-20-PD

#### **Proposed Tenant Scenario:**

182 Day care - 6,153 gross sf - 29% of building

These first and second story areas combined would make a great child care facility as there is ample space and direct access to the back portion of the courtyard for outdoor play. Direct entry into the lower level from the parking lot also makes for easy drop-off & pick-up.

38.4 Artist Studios - 7,312 gross sf - 35% of building

The 6 large classrooms seen on plan could be easily broken up into smaller studio spaces for artists to rent out.

building may be brought back to life.

- 5 Office Space 2,046 gross sf 10% of building
  - The two large classrooms here could provide space for open work stations and meeting areas.
- 6 Restaurant Space gross 5,485 sf 26% of building The existing gymnasium of the school features high ceilings and tall windows for ample natural light and ambiance. Entry from the courtyard creates accessibility for outdoor seating.

ASIT APPEARS ON THE CURRENT PLANNING COMMISSION AGENDA

-19-RZ 10-F-19-PA 10-J-19-S/OCT. 0 2 2019

W: 10 10 19 Knoxville-Knox County
Planning

Request Accepted by:

#### **PLEASE NOTE**

Consistent with the guidelines set forth in Planning's Administrative Rules and Procedures:

#### **POSTPONEMENTS**

Any first time (new) Planning application is eligible for one automatic postponement. This request is for 30 days only and does not require Planning approval if received no later than 3:30 p.m. on the Monday prior to the Planning Commission meeting. All other postponement requests must be acted upon by Planning before they can be officially postponed to a future public meeting.

#### **TABLINGS**

Any item requested for tabling must be acted upon by the Planning Commission before it can be officially tabled.

#### **WITHDRAWALS**

Any item is eligible for automatic withdrawal. A request for withdrawal must be received no later than 3:30p.m. on the Monday prior to the Planning Commission meeting. Withdrawal requests that do not meet these guidelines must be acted upon by Planning Commission before they can be officially withdrawn.

Any new item withdrawn may be eligible for a fee refund according to the following:

Application withdrawal with fee refund will be permitted only if a written request is received prior to public notice. This request must be approved by either the Executive Director, or the Planning Services Manager. Applications may be withdrawn after this time, but without fee refund.
