[Planning Applications] Rezoning Request

Hi Timothy,

Both of these rezonings will require sector plan amendments as well. The current sector plan (a.k.a. future land use map) has these properties designated as TDR, which does not allow RN-6 zoning.

To include the sector plan amendment, you can check that box on the top of the application (right above where you have checked Rezoning), and fill out the sector plan area (also with the rezoning) on the 2nd page of the application. RN-6 is only allowed in the HDR (High Density Residential) land use class, so you will need to ask for that, and put something in there about multifamily development and the density you are looking for.

Also, for the ROW closures you are requesting in September, we are missing the signature of the development on the other side of the creek to the west (Sutherland Park). You can add that name and signature to the existing page 2 with the rest of the signatures, assuming you still have a copy of that. Let me know if you don't.

If you have any questions, please let me know.
Michelle

I hope to have you that signature(s) soon.

Attached are the rezoning requests (along with sector change requests).

You had specified that I needed to request it to be HDR, but I matched the adjoining MDR/RN-6 property (to avoid pocket zoning/sectoring). If this will not meet our request, please let me know and I will make it HDR instead.

The MDR land use does not support the RN-6 zone. There are some anomalies out there from when we adopted a new zoning ordinance that took effect on January 1, 2020, and that is the case in this situation. You will need to request the HDR land use classification.

Mr. Howell,

Regarding the requests to close the rights-of-way, we will need to recommend postponement of both requests since we do not yet have the last signature on the canvass form. It would be heard at the October meeting.

Thank you,
Michelle

Dear Ms. Portier:

Re: Right-of-Way Closure Request 9-A-20-AC

We have reviewed our records and find that we have existing utility facilities located within the subject right-of-way. The approximate locations of these facilities are indicated on the enclosed prints. However, KUB does not release and hereby retains all easements and rights for existing utility facilities, whether or not shown on these prints.

Should this right-of-way be closed, KUB will require the following permanent easement for its utility facilities.

Sewer – 12.5 feet on each side of the centerline of the sewer line, 25 feet total width

If you have any questions regarding this matter, please call me at (865) 558-2483.

Sincerely,

Christian Wiberley, PE
