## STAFF RECOMMENDATION:

▶ **POSTPONE** the application until the August 12, 2021 Planning Commission meeting as requested by the applicant.

The applicant has requested postponement to allow additional time to address comments from staff.

## COMMENTS:

This proposed residential subdivision includes 18 lots on 9.19 acres with access to Nickle Road. The property is zoned RN-2 (Single-Family Residential Neighborhood) / HP (Hillside Protection Overlay) district, however, it also has the (C) zoning designation because it was formerly zoned RP-1 (Planned Residential). The former RP-1 zoning still applied to this property but the applicant submitted a Special Use application (4-F-21-SU) requesting removal of the RP-1 zoning so they can develop under the new RN-2 zoning on the property. This Special Use application was recommended for approval by the Planning Commission in April 2021 and was approved by City Council in May 2021.

ESTIMATED TRAFFIC IMPACT: 215 (average daily vehicle trips)

Average Daily Vehicle Trips are computed using national average trip rates reported in the latest edition of "Trip Generation," published by the Institute of Transportation Engineers. Average Daily Vehicle Trips represent the total number of trips that a particular land use can be expected to generate during a 24-hour day (Monday through Friday), with a "trip" counted each time a vehicle enters or exits a proposed development.

ESTIMATED STUDENT YIELD: 6 (public school children, grades K-12)

Schools affected by this proposal: Pleasant Ridge Elementary, Northwest Middle, and Karns High.

- Potential new school population is estimated using locally-derived data on public school student yield generated by new housing.
- Students are assigned to schools based on current attendance zones as determined by Knox County Schools. Students may request transfers to different zones, and zone boundaries are subject to change.
- Estimates presume full build-out of the proposed development. Build-out is subject to market forces, and timing varies widely from proposal to proposal.
- Student yields from new development do not reflect a net addition of children in schools. Additions occur incrementally over the build-out period. New students may replace current population that ages through the system or moves from the attendance zone.

Knoxville-Knox County Planning Commission's approval or denial of this request is final, unless the action is appealed to Knox County Chancery Court. The date of the Knox County Chancery Court appeal hearing will depend on when the appeal application is filed.
