STAFF RECOMMENDATION:

Approve the preliminary plan for the Historic Giffin Square planned development, including approval of the requested exceptions to the underlying zoning's dimensional and use standards, subject to 4 conditions:

1) Upon approval of the preliminary plan by City Council, a final plan shall be submitted for review and approval by the Planning Commission. The final plan shall be in substantial compliance with the approved preliminary plan.

2) The development shall be compliant with all aspects of the City of Knoxville Zoning Ordinance unless an exception has approved through the planned development process outlined in Article 16.7.

3) Landscaping plans (Article 12) and a lighting plan (Article 10.2) shall be submitted with the final planned development application per their respective articles in the zoning ordinance.

4) Submitting a revised transportation impact letter with the Final Plan application to evaluate the sight distance at the final driveway locations.

COMMENTS:

This preliminary plan application for the Planned Development process is to allow multi-family dwellings on this site, which is prohibited in the current RN-2 (Single-Family Residential Neighborhood) zoning. To allow multi-family as proposed, the applicant can request a rezoning to a higher intensity residential zone, like RN-5 (General Residential Neighborhood), or go through the Planned Development process outlined in Article 16.7. of the City of Knoxville Zoning Ordinance. The Planned Development process allows consideration of exemptions to the base zoning district but requires that the applicant demonstrate superior design and enhanced amenities, and there must be a substantial benefit to the City.

This proposal includes the following three exemptions, which are described in more detail on pages 10-13 in the Historic Giffin Square preliminary plan document (revised 6/1/2022):

1) Add "Dwelling – Multi-Family" as a permitted use in the RN-2 zone (Article 9.2, Table 9-1)

2) Allow 1 dwelling unit per 3,500 sqft of land area (Article 4.3, Table 4-1 – Minimum Lot Area)

3) Remove/delete RN-2 from Article 10.1.A (Number of Structures on a Lot)

If approved, the exemptions listed above will allow multi-family development within multiple building buildings with a maximum of 77 dwelling units on this parcel. The plan includes renovating the historic Giffin School, two new low-rise apartment structures, and a community "commons space" in the new structure closest to Beech Street (page 24). The proposed use and community benefits are provided on pages 6-9 of the preliminary plan.

A transportation impact letter (Fulgham MacIndoe, rev. 3/28/2022) was submitted to evaluate the driveway locations on Beech Street. If the Preliminary Plan is approved and a Final Plan is submitted, the TIL will be updated with the final driveway locations to certify that sight distance can be obtained.

ESTIMATED TRAFFIC IMPACT: A traffic impact study was prepared by the applicant. The findings of that study were used in formulating the recommendations of this staff report.

ESTIMATED STUDENT YIELD: 7 (public school children, grades K-12)

Schools affected by this proposal: Dogwood Elementary, South Doyle Middle, and South Doyle High.

• Potential new school population is estimated using locally-derived data on public school student yield generated by new housing.

Students are assigned to schools based on current attendance zones as determined by Knox County Schools. Students may request transfers to different zones, and zone boundaries are subject to change.
Estimates presume full build-out of the proposed development. Build-out is subject to market forces, and

timing varies widely from proposal to proposal.

• Student yields from new development do not reflect a net addition of children in schools. Additions occur incrementally over the build-out period. New students may replace current population that ages through the system or moves from the attendance zone.

If approved, this item will be forwarded to Knoxville City Council for action on 8/9/2022. If denied, Knoxville-Knox County Planning Commission's action is final, unless the action to deny is appealed to Knoxville City Council. The date of the appeal hearing will depend on when the appeal application is filed. Appellants have 15 days to appeal a Planning Commission decision in the City.

AGENDA ITEM #: 48	FILE #: 4-A-22-PD	7/7/2022 12:57 PM	MIKE REYNOLDS	PAGE #:	48-2

June 16, 2022

- To: Mike Reynolds, Principal Planner Knoxville-Knox County Planning Amy Brooks, Executive Director - Knoxville-Knox County Planning
- Fr: David Cockrill Owner / Architect : Historic Giffin Square
- Cc: David Case Developer : Historic Giffin Square
- Re: Historic Giffin Square June 1, 2022 Revisions to Feb. 28, 2022 Planned Development Application

Through numerous and regular collaborations with the South Haven Neighborhood Association (SHNA), we have made significant revisions to our development concept reducing scale and density. Several salient points we wanted to draw to your attention:

- 1. The number of new buildings has been reduced from 5 to 2. New buildings are essentially sited on the existing playground with minimal intrusion into the existing tree line.
- 2. Residential units have been reduced from 99 to 77 (28% reduction)
- 3. Bedrooms have been reduced from 199 to 135 (47% reduction)
- 4. Originally our concept required 146 parking spaces and with Zoning Exemption 3, a reduction to 102; this revised concept requires 107 and with Zoning Exemption 3, a reduction to 75.
- 5. In response to the SHNA, we agreed to provide one space per bedroom for a total of 135. The site can accommodate approximately 175 spaces. We have committed to working with the SHNA to mutually determine the approximate 40 spaces to be deleted from the site plan. This will allow for working around existing trees, etc. Maximum allowed parking spaces by ordinance is 143.
- 6. Land area per dwelling unit has increased from 2,700 SF to 3,513 SF
- 7. Relocation of the southern driveway (essentially where existing drive is today) satisfies traffic sight-line concerns.
- 8. We have removed the notion of a public walking trail and dog park from our application as the neighbors are not yet in consensus. However, we have left the door open for such should the City and Community agree on a plan.

Proposed Use

02

Community Benefits

03

RN-2 District Exceptions

Proposed Use

"Historic Giffin Square" is anchored by and builds upon the community legacy of Giffin School, circa 1928 / 50.

The school building is on the National Register of Historic Places and the National Park Service has approved Part 1 & 2 of our Historic Tax Credit application (Part 3 : construction / renovation)

The proposed development will provide well-appointed multi-family housing units for working class families and individuals. The formularized rents will address a critical housing need for those in the South Haven Neighborhood and larger Knoxville Community at 60-80% of the median income range.

The development will provide a maximum of 77 dwelling units composed of Efficiencies, One-, Two-, and Three-Bedroom residences. The historic structure and two new residential buildings incorporating a commons space will be utilized.

Community Benefits

The proposed Planned Development presents a flexible and creative design preserving historic architecture through an innovative site and facility design of affordable multi-family housing posing a number of benefits to the City and South Haven Neighborhood.

The Planned Development application was originally submitted February 28, 2022. Upon acquiring the property in 2015, we established a relationship with the South Haven Neighborhood Association (SHNA). Prior to submitting our application, we engaged the SHNA in dialogue and discussion about our proposed development resulting in a series of Neighborhood forums:

- February 19.....met at Hillcrest United Methodist Church to present / discuss a preliminary plan and receive input. (attendance aprx 20-25)
- March 26.....met at owner / developer office to present/discuss 2-28-22 application and receive input. (attendance aprx 25+)
- April 16......SHNA met at Hillcrest United Methodist Church to discuss/collect definitive input as requested by owner/developer. (attendance aprx. 25) April 22.....video conference to clarify 4-16-22 SHNA input.
- May 7.....met at owner / developer office to present/discuss revised concept and receive input. (attendance 6)
- May 21.....met at Hillcrest United Methodist Church to again present / discuss revised concept for those unable to attend the 5-7-22 meeting and receive additional input. (15 attendance)

Additionally the owner / developer offered open office hours for "drop by" discussion of the development. Neighborhood input was cataloged in four main categories:

- Infrastructure
- Massing & Number of Buildings
- Forest, Views & Baker Creek
- Management & Safety

In consideration of this process, significant revisions were made resulting in the reduction of scope and density. Salient community benefits and the results of the neighborhood's involvement are as follows:

- **Restores a vacant derelict "historic property" to meaningful use.** The property has been on Knox Heritage's "Fragile Fifteen" for a number of years. The existing building cannot readily be demolished, and the site utilized otherwise due to an easement and deed restriction held by Knox Heritage. The property is on the National Historic Register.
- Development and occupancy of the property will add vitality, increased security, activity and a welcome addition to the neighborhood.
- **Housing** in the development's **price range** is sorely needed in Knoxville. "Workforce Housing" is not public housing, far from it. This type housing will be very beneficial to Knoxvillians in that it lowers the cost of good family housing through tax credits and / or Community Investment Tax Credit funding.

The people who would be able to live and benefit from our development are teachers, police and firemen, service workers (servers, cooks, bartenders), coaches, church staff, mechanics, construction workers, virtual workers, etc....paralleling the vocations and incomes of current-day South Haven / South Knoxvillians. It is fair to say that <u>our development will offer quality</u> housing opportunities to the very families and friends of those currently living in the South Haven Neighborhood.

The project **brings working families and individuals**.... contributing to the community and strengthening the neighborhood economy.

- New buildings:
 - have been reduced from 5 to 2. The original application contained four new dwelling unit buildings and one freestanding Commons building.
 - are required to be compatible and complimentary of the 1928
 Colonial Revival (Barber & McMurray) and the 1950 Modernist (Bruce McCarty) styles of the school. The exteriors of the school will be rehabilitated per the Secretary of the Interiors Standards for the Treatment of Historic Properties and as per a Knox Heritage

easement / deed restriction recorded at the Knox County register of Deeds.

- will attain a high level of sustainability and environmental innovation.
- New construction has a **low impact on street frontage**. One building aligned with the existing building setback, has only a nominal 128' front elevation. The second building is located due east of and aligns with the first. Elevations of the new buildings at the ambient Beech Street topography are of an allowed three-story residential height of 35'; shorter than the roof ridge line of the existing historic school building.
- **new construction is essentially limited to the existing playground area** and intrudes only approximately 2,200 SF into existing tree line at each dwelling unit building.
- "Commons" space will be:
 - available for meetings and activities and including computers / internet service, warming / catering kitchen, mailboxes, community restrooms and laundry facility.
 - focal point and access directly from Beech Street to the Commons which will be located on the ground floor of the western-most dwelling unit.

• Density:

- Through the collaboration with the neighborhood, dwelling units have been reduced from 99 to 77 generating 135 bedrooms, a reduction of 64 bedrooms from the original submittal.
- In contrast and comparison to what is currently allowed by zoning, an alternative **development concept** would be to subdivide the property into the <u>maximum number of single-family lots</u>. Preliminarily, we believe 22 lots are possible resulting in a primary and accessory dwelling unit per lot; 44 new residential buildings (stand-alone, attached, or duplexes) generating approximately 149 to 171 bedrooms. With these structures come <u>individual driveways</u>, <u>mailboxes</u>, <u>street</u>

parking and the loss of the existing woods outside the flood plain and maybe more (approximately 50+% of existing).

- Parking:
 - Although <u>75 spaces would be required</u> of the development, the neighborhood expressed a concern regarding street parking and requested that we provide one parking space per bedroom. Our site plan will accommodate as many as 175 spaces. We agreed to work with the SHNA in locating the nominal 135 spaces needed. Our revised application requests approval for a range of spaces from 125 to 143. The maximum allowable by code is 143, increasing 20% to 171 through the use of pervious paving.
- Sight Line:
 - concerns regarding the new development to adjoining residences was addressed. We illustrated that the distance from the western-most new building to the closest residence on Beech Street is 120' with other adjacent residential structures along South Haven and Lenland being 350' to 550' away; at a minimum the distance from end zone to end zone of Neyland Stadium. Considering many residences in the immediate area of the Giffin property are separated by as few as 15'; sight lines are not a problem.
- Storm Drainage:

- **concerns were eliminated** by communicating the City's requirement that the new development requires that pre-development rates of storm water discharge be maintained
- Developers are strongly incentivized to maintain the development and to keep occupancy rates high through a minimum 30-year commitment to the property or they risk elimination from future tax credit deals in addition to the loss of their substantial financial guarantees. The development will have an on-site property manager and maintenance foreman. A template lease to be utilized for the property has been shared with the SHNA that strongly addresses the concerns of the neighborhood regarding safety and management. Our development team has shared many successful project examples with the SHNA.
- The development is poised to **begin immediately** upon approval of the Planned Development.
 - Nearly \$1,000,000 has been spent to date in stabilization of the property:

- Abatement of hazardous materials: lead paint, asbestos, batteries, mercury, refrigerants, PCBs.
- Structural stabilization due to water, termite and member deflection
- Interim roof repairs
- Parts 1 & 2 for the Historic Tax Credit are already approved subject to minor adjustments resulting from the interior floor plan changes.
- The existing project will benefit from completed design documents requiring only modest modifications for multi-family housing (originally approved Jan 2016 by the Planning Commission and building permit in May 2017).
- **First-class site design and development**, handsomely landscaped, maintained and with real possibilities to create public amenities in a partnership with the City and neighborhood. The developer will consider, collaborate, coordinate, and contribute in a meaningful way on these possibilities as desired by the City and South Haven Community. We are poised to provide reasonable and proportional funding of these amenities. At the very least we will develop our property in an effort to anticipate these developments going forward, incorporating these elements in our initial development and construction of the project.
 - Whereas our original application included development of a walking trail and linear park, "Giffin Trail", along Baker Creek connecting to the existing Mary James Park, neighbors participating in our design forums are not yet in consensus on this item. The owner / developer has taken the position that we will participate with use of our land and finances should the City and neighborhood reach agreement on the development of such a trail or other similar public amenity.
 - "Giffin Dog Park" could be incorporated on the northwestern-most corner of the Giffin property and adjoining undeveloped property along Lenland. The next closest dog park is 4 miles away (Doyle Park). The owner / developer has taken the position that we will participate with use of our land and finances should the City and neighborhood reach agreement on the development of such a public amenity.
 - Utilizes a **single vehicle circulation pattern** affording a **large percentage of the site to be maintained in a natural state** and as a neighborhood amenity.
 - All elements of the project are **outside the flood plains**.
 - Mature **plant material** on sloped areas will be **sensitively maintained** and cleared of underbrush, providing a pleasing canopy for passive use and exploration. Diseased and damaged trees will be professionally pruned or removed. We are committed to the **reforestation** of the flood plain in compliance and cooperation with jurisdictional authorities.

• The development will offer additional benefits in the form of:

- gathering spaces and amenities such as plazas, gardens, pedestrian walks, and landscaped areas.
- sustainable design and architecture will address elements such as green
 / white roofs, other energy efficient design concepts, new building
 technologies, established standards such as Energy Star (etc.), electric
 vehicle charging stations, and consider use of photovoltaic or other
 sustainable energy sources.
- Preservation of existing environmental features, protections for steep slopes, provision of additional trees and plant material through our landscaping / reforestation effort for the slopes and flood plain.
- welcome the opportunity to work with the City to incorporate on / or tangent to our property, the development of recreational open space, including parks and playgrounds, natural water features (Baker Creek) and conservation areas, jogging trails and fitness courses (Giffin Trail), dog parks, and similar features.
- Affordable housing set-asides are a key characteristic and motivation for our proposed project.
- While not establishing senior housing set-asides based on Section 8 housing, we will rent to seniors, accepting vouchers, etc. Our Efficiency Units are a good fit for seniors.

.

RN-2 District Exceptions

Giffin Historic Square will require exceptions to the underlying RN-2 zoning requirements as follows:

Exception #1: Article 9-2, Table 9-1: Add Dwelling – Multi-Family as a permitted use in the RN-2 district.

PRINCIPAL USE	EN	RN-1	RN-2	RN-3	RN-4	RN-5	RN-6	RN-7	C-N	C-G	C-H	C-R	DK	0	OP	I-MU	I-RD	I-G	I-H	AG	INST	OS	NA	USE STAN- DARD (Section

Exception #2: Allow 1 dwelling unit per 3,500 sq. ft. of land area (MF: 3,500 SF/DU)

- Article 4.3, Table 4-1 : Residential Districts Dimensional Standards requires a Minimum Lot Area of 5,000 SF per single family and 10,000 SF per two family dwellings. Assuming the concept's maximum of 77 residential dwelling units; there will be approximately 3,513+ SF per unit, not quite twice the RN-2 density.
 The property is a total of 6.21 acres.

Development Concept

05

Exhibits

Development Concept

The Development concept for Giffin Historic Square is sensitively designed to fit the context, pattern, and history of an established neighborhood. The holistic design features and coordinates the many characteristics of the property: historic school's multiple architectural vernaculars, park-like setting bordered by a natural creek, dramatic slopes, mature trees, and the scale of a traditional neighborhood.

In addition to the many benefits listed above, specific characteristics and elements of the development concept are summarized as follows:

Minimum Required Off-street parking / loading plan

• EXISTING bldg. 27 Efficiencies 12 ONE Bedrooms	x 1.2 [1 per DU + 0.2 guest]33 x 1.2 [1 per DU + 0.2 guest]15
NEW construction	
12 TWO Bedrooms	x 1.45 [1.25 per DU + 0.2 guest]17.4
24 THREE Bedrooms	x 1.70 [1.5 per DU + 0.2 guest]40.8
Loading spaces	1
Total calculated spaces.	
(Zoning Exemption 3)	x 70%
Total required spaces	
	e)

Circulation will utilize the existing curb cut to the south of the property at Beech Street and a "loop" drive to a second new curb cut aligning with Buford Street

Landscape Plan as required by zoning code will meet or exceed requirements. Existing healthy plant material and trees will be preserved to the greatest degree possible. The site, as is, provides for a park-like setting for our new residents.

Landscape screens, planting beds, ground cover, shrubbery and flowering plants will be used strategically at building foundations, dumpsters, along adjacent residential property and to direct views and vistas into and from the new residences. Existing landscaping and lawn areas will be enhanced and maintained in good condition.

The project's landscaping will constitute a key amenity for residents and the neighborhood at large.

Building Footprints utilize the existing building pad established by the original school and constituted by the former school building, school's ball fields, service areas and drives. New buildings are located on this established building pad to maximize "at grade" entrances.

Architectural Elevations of the historic building shell will be rehabilitated per the Secretary of the Interior's Standards for the Treatment of Historic Properties and as established by Instrument No. 201505220063596 in the Knox County Register of Deeds Office (easement / deed restriction held by Knox Heritage). This protocol requires interior elements to be preserved and incorporated into the interior buildout and modifications.

New buildings will borrow from the existing structure's Colonial Revival and Modernist architectural vernacular. Design of the new is subject to review per historic criteria and must be compatible and complimentary to the historic structure. Tasteful, timeless modern-day aesthetics are the outcome goal and commitment of the design process and development team.

Project Signage will be located as compliant with the Knoxville Zoning Ordinance and as allowed in the RN-2 District. Owner will apply for a City of Knoxville Sign Permit as design progresses and the name of the development is confirmed.

Building Setbacks will be compliant with the Knoxville Zoning Ordinance and as allowed in the RN-2 District. No exceptions to building setbacks are being requested.

Storm Drainage infrastructure will be brought into good working condition and improvements implemented to comply with City Engineering Department's requirements. Storm water will be retained per City requirements.

U.S. Mail will be delivered to the Commons mailroom. Residents will access individual address mailboxes by key / code. No exterior mailboxes will be provided for this project.

Amenities will include passive elements such as gardens, walking trail, benches / site seating, playground equipment, community activity space, site art / sculpture. No large-scale amenities for sports / recreation, athletic fields / courts, swimming pools, sports lighting, bleachers / grandstands, outdoor events, etc. are planned for this project.

Garbage Dumpster locations will be strategically placed for optimum function, management, control, and aesthetics. Enclosures will be of durable construction using the same design concept and material as that of the buildings.

Transportation Impact Letter is required and addresses an abbreviated analysis primarily associated with trip generation and the new access point (curb cut) proposed. This analysis has been prepared by a qualified transportation engineer.

Sign Posting & Removal Requirement

Revised April 2021

The Administrative Rules and Procedures of the Knoxville-Knox County Planning Commission require a sign to be posted on the property for each application subject to consideration by the Planning Commission, including the following applications: rezoning, plan amendment, concept plan, use on review/special use, planned development, right-ofway closure, and name change.

The required public notice sign(s) will be provided by Planning to the applicant when an application is submitted. If an application is submitted electronically, Planning staff will post the required sign. If a replacement sign(s) is needed, the applicant is responsible for picking up the new sign(s) from Planning and will be charged \$10 for each replacement.

LOCATION AND VISIBILITY

The sign must be posted on the nearest adjacent/frontage street and in a location clearly visible to vehicles traveling in either direction. If the property has more than one street frontage, the sign should be placed along the street that carries more traffic. Planning staff may recommend a preferred location for the sign to be posted at the time of application.

TIMING

The sign(s) must be posted **not less than 12 days prior to the scheduled Planning Commission public hearing** and must remain in place until the day after the meeting. In the case of a postponement, the sign can either remain in place or be removed and reposted not less than 12 days prior to the next Planning Commission meeting. The applicant is responsible for removing the sign after the application has been acted upon by the Planning Commission.

The individual below is responsible for posting and removing the sign(s) provided consistent with the above guidelines and between the dates of:

march 30/2022 and	april 15, 2022
(applicant or staff to post sign)	(applicant to remove sign)
Applicant Name: David Ockaill Date: Applicant Name: File Number: Date:	Sign posted by Staff Sign posted by Applicant
