The Planning Commission may reduce or otherwise vary the requirements of the Subdivision Regulations when it finds the hardship criteria are met. In granting such variances, the Planning Commission may attach and require whatever conditions it feels are necessary to secure the basic objectives of the varied regulations. Any variance granted by the Planning Commission shall be noted in its official minutes along with the justification for granting the variance (Subdivision Regulations, Section 1.05).

HARDSHIP CONDITIONS TO BE MET:

- 1 Conditions Required:** Where the Planning Commission finds that extraordinary hardships or particular difficulties may result from the strict compliance with these regulations, they may grant, by way of application, variations to the Subdivision Regulations, subject to specified conditions, so that substantial justice may be done and the public interest secured, provided that such variations shall not have the effect of nullifying the intent and purpose of these regulations or the comprehensive plan.
- 2 Evidence of Hardship Required:** The Planning Commission shall not grant variations to the Subdivision Regulations unless they make findings based upon the evidence presented to them in each specific case that:
 - a. Because of the particular surroundings, shape, or topographical conditions of the specific property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience, if the strict letter of the regulations were adhered to.
 - b. The conditions upon which the request for a variation is based is unique to the property for which the variation is sought and is not applicable, generally, to other property, and has not been created by any person having an interest in the property.
 - c. The purpose of the variation is not based exclusively upon a desire for financial gain.
 - d. The granting of the variation will not be detrimental to the public safety, health, or welfare, or injurious to other property or improvements in the neighborhood in which the property is located.

By signing this form, I certify that the criteria for a variance have been met for each request, and that any and all requests needed to meet the Subdivision Regulations are requested above or are attached. I understand and agree that no additional variances can be acted upon by the legislative body upon appeal and none will be requested.

	Joshua Haun	2/2/2024
Signature	Printed Name	Date

It is the applicant's responsibility to identify the hardship that would result, as distinguished from a mere inconvenience, if the strict letter of the regulations was adhered to. Each of the variance criteria must be addressed in the comments below with specific facts regarding the unique details of the property and/or project, as applicable.

1. VARIANCE REQUESTED:

A variance requesting the subdivision plat be accepted without surveying the former portion GIS 094HC010 separated by deed in 1980 for which a variance is not required per subdivision regulation 2.13B.

Specify the hardship that would result for each of the variance criteria:

A. Pertaining to the particular surroundings, shape, or topographical conditions of the subject property: The surrounding land (GIS 094HC010) is under separate ownership. They have access elsewhere. Variance is for separating lots under different ownership.

B. Pertaining to conditions unique to the property that are not applicable to other property and has not been created by any person having an interest in the property.

Parcels are currently under separate ownership as it stands. Lot was separated by deed in 1980 but never recorded on a plat. We look to address this issue with our record plat by separating the portion separated by deed and showing it as separate lot on an official map.

C. Pertaining to the purpose of the variation is not based exclusively upon a desire for financial gain. This variance request is not intended exclusively for desire of financial gain but more for the public good as affordable housing is to be constructed and permits cannot be issued until the lots are separated. The owner would incur additional costs if required to survey land they do not own.

D. Pertaining to the granting of a variance will not be detrimental to public safety, health, or welfare, or injurious to other property or improvements in the neighborhood in which the property is located.

We do not view the granting of the variance as detrimental to the public in any, if anything we think this will be a positive action for the community as we can provide affordable housing for a growing community.

To be completed by the City or County Department of Engineering, as applicable:

Engineering supports the variance requested (to be completed during review process): YES NO

Engineering Comments:
