► **PRESENT ZONING:** A (Agricultural)
► **ZONING REQUESTED:** PR (Planned Residential)
► **EXISTING LAND USE:** Agriculture/Forestry/Vacant Land

► **DENSITY PROPOSED:** up to 5 du/ac
EXTENSION OF ZONE: No.
HISTORY OF ZONING: None noted.
SURROUNDING LAND USE AND ZONING: North: Agriculture/forestry/vacant land - RB (General Residential)
South: Single family residential, agriculture/forestry/vacant land - A (Agricultural)
East: Agriculture/forestry/vacant land - A (Agricultural)
West: Agriculture/forestry/vacant land - RB (General Residential)
NEIGHBORHOOD CONTEXT: This is a forested, hilly rural residential area west of an industrial and manufacturing corridor along E Governor John Sevier Highway.

STAFF RECOMMENDATION:

- Approve the PR (Planned Residential) zone up to 1 du/ac because it is consistent with surrounding development and infrastructure conditions.

COMMENTS:

PURSUANT TO THE KNOX COUNTY ZONING ORDINANCE, ARTICLE 6.30.01, THE FOLLOWING CONDITIONS MUST BE MET FOR ALL REZONINGS (must meet all of these):

THE PROPOSED AMENDMENT SHALL BE NECESSARY BECAUSE OF SUBSTANTIALLY CHANGED OR CHANGING CONDITIONS IN THE AREA AND DISTRICTS AFFECTED, OR IN THE CITY/COUNTY GENERALLY:

1. The subject property is in a rural area of East Knox County with sparse residential development, steep, forested slopes and winding street access. There are no changes in development or transportation conditions that support an increase in residential intensity at this location.
2. The nearest major arterial street is E Governor John Sevier Highway, where the corridor is primarily developed for industrial and manufacturing purposes with heavy trucking traffic. Commercial activity is not service-oriented or supportive of more residential development.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH THE INTENT AND PURPOSE OF THE APPLICABLE ZONING ORDINANCE:

1. This is a request to rezone approximately 20 acres of a 36-acre lot from A (Agricultural) to PR (Planned Residential) up to 5 du/ac. The remaining portion of the site is zoned RB (General Residential), and is not included in this rezoning request. This RB zoning is part of a larger zone area that predates the General Plan and sector plans, which looked at future land use, environmental issues, and incorporated public feedback. It should be noted that the RB zone is a more intensive residential zone, and it conflicts with the Comprehensive Plan's RC (Rural Conservation) place type for this area.
2. The PR (Planned Residential) zone is intended to provide optional methods of development that are responsive to environmental challenges on a site. Residential development can be clustered in the more suitable areas of a lot to avoid more environmentally sensitive areas such as streams, steep slopes and sinkholes. The PR zone also emphasizes compatibility with surrounding areas.
3. The subject property is entirely forested with steep slopes included in the HP (Hillside Protection) area. These environmental conditions are aligned with the intent of the PR zone.

PROPOSED AMENDMENT SHALL NOT ADVERSELY AFFECT ANY OTHER PART OF THE COUNTY, NOR SHALL ANY DIRECT OR INDIRECT ADVERSE EFFECTS RESULT FROM SUCH AMENDMENT:

1. The requested PR density of up to 5 du/ac is excessive for this sparsely populated and steep-sloped region, and it could have an adverse impact on traffic, natural features, and the rural character of the area.
2. The existing Agricultural zone on the subject parcel has a 1-acre minimum lot size for dwellings, so it does not permit clustering of residences in the optimal areas of the lot. Staff recommend the PR zone at a density of 1 du/ac, which does not increase the overall density permitted. It allows that density to be concentrated in the less environmentally sensitive areas of the property, rather than spread throughout. A total of 20 homes would be permitted.
3. The recommended density of 1 du/ac acknowledges limited utility and transportation infrastructure in this area. Where this property accesses Strawberry Plains Pike and Thorn Grove Pike there are no shoulders or turn lanes, and there is limited sight distance. This property also does not have readily available sewer access.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH AND NOT IN CONFLICT WITH THE COMPREHENSIVE PLAN OF KNOX COUNTY, INCLUDING ANY OF ITS ELEMENTS, MAJOR ROAD PLAN, LAND USE PLAN, COMMUNITY FACILITIES PLAN, AND OTHERS:

1. The subject property is included in the boundaries of the adopted East Knox Community Plan, which primarily focuses on ways to retain the rural character of East Knox County. The subject property is in a designated "Rural Area," and Thorn Grove Pike is identified as a "Rural Corridor" where infrastructure expansion should be limited, and natural and scenic assets preserved. The recommended rezoning of PR up to 1 du/ac is aligned with the intent of this small area plan by maintaining the existing residential potential, but with the ability to concentrate development and conserve scenic areas.
2. The subject parcel is in the RC (Rural Conservation) place type in the Comprehensive Plan, which permits consideration of PR as a partially related zone. The subject property meets the additional criteria of a partially related zone by being consistent with the primary and secondary uses of the RC place type, which are detached and attached dwellings in a conservation land use pattern. The conservation development approach permitted in the PR zone is also aligned with the intent of the RC place type, which describes preserving 50 to 70 percent of a site as natural open space.
3. The PR zone at 1 du/ac is consistent with the Comprehensive Plan's Implementation Policy 9 to coordinate infrastructure improvements with development, and more specifically with policy 9.5, to avoid approving isolated developments where infrastructure is inadequate or not yet planned. The road and utility infrastructure in this area is not yet suitable for an increase in residential intensity, and there are few nearby amenities like service-oriented businesses and schools. The intensive manufacturing and industrial activity nearby is also not designed for more residential development in this area.
4. The PR zone at 1 du/ac is aligned with the property's location in the Planned Growth Area of the Growth Policy Plan. The Plan states that housing choices in the Planned Growth Area should be coordinated with the provision of adequate roads, utilities, schools and other facilities and services.

ESTIMATED TRAFFIC IMPACT: 1018 (average daily vehicle trips)

Average Daily Vehicle Trips are computed using national average trip rates reported in the latest edition of "Trip Generation," published by the Institute of Transportation Engineers. Average Daily Vehicle Trips represent the total number of trips that a particular land use can be expected to generate during a 24-hour day (Monday through Friday), with a "trip" counted each time a vehicle enters or exits a proposed development.

ESTIMATED STUDENT YIELD: 22 (public school children, grades K-12)

Schools affected by this proposal: Sunnyview Pr/Chilhowee Int, Carter Middle, and Carter High.

- Potential new school population is estimated using locally-derived data on public school student yield generated by new housing.
- Students are assigned to schools based on current attendance zones as determined by Knox County Schools. Students may request transfers to different zones, and zone boundaries are subject to change.
- Estimates presume full build-out of the proposed development. Build-out is subject to market forces, and timing varies widely from proposal to proposal.
- Student yields from new development do not reflect a net addition of children in schools. Additions occur incrementally over the build-out period. New students may replace current population that ages through the system or moves from the attendance zone.

If approved, this item will be forwarded to Knox County Commission for action on 11/12/2024. If denied, Knoxville-Knox County Planning Commission's action is final, unless the action to deny is appealed to Knox County Commission. The date of the appeal hearing will depend on when the appeal application is filed. Appellants have 30 days to appeal a Planning Commission decision in the County.

Public Notice and Community Engagement

Sign Posting and Removal

The Administrative Rules and Procedures of the Knoxville-Knox County Planning Commission require a sign to be posted on the property for each application subject to consideration by the Planning Commission.

Planning staff will post the required sign. If a replacement sign(s) is needed, the applicant is responsible for picking up the new sign(s) from Planning and will be charged \$10 for each replacement.

Location and Visibility

The sign must be posted on the nearest adjacent/frontage street and in a location clearly visible to vehicles traveling in either direction. If the property has more than one street frontage, the sign should be placed along the street that carries more traffic. Planning staff may recommend a preferred location for the sign to be posted at the time of application.

Timing

The sign(s) must be posted not less than 12 days prior to the scheduled Planning Commission public hearing and must remain in place until the day after the meeting. In the case of a postponement, the sign can either remain in place or be removed and reposted not less than 12 days prior to the next Planning Commission meeting. The applicant is responsible for removing the sign after the application has been acted upon by the Planning Commission.

Community Engagement

Planning strives to provide community members with information about upcoming cases in a variety of ways. In addition to posting public notice signs, our agency encourages applicants to provide information and offer opportunities for dialogue related to their upcoming case(s).

Acknowledgement

By signing below, you acknowledge that public notice signs must be posted and visible on the property consistent with the guidelines above and between the dates listed below.
