HISTORY OF ZONING: In 1998, a request to rezone the property from A (Agricultural) to RB (General Residential) was withdrawn (5-FF-98-RZ). In 1983, the property was part of a large government rezoning to add the TO (Technology Overlay) zone (12-FF-83-RZ), and the TO was removed in a government rezoning in 1992 (10-W-92-RZ).

The property is approximately a mile from Pellissippi Parkway and Concord Park.

---

**STAFF RECOMMENDATION:**

- **Approve the PR (Planned Residential) zone up to 5 du/ac because it is compatible with surrounding development and amenities, and it acknowledges environmental constraints on the site.**

**COMMENTS:**

PURSUANT TO THE KNOX COUNTY ZONING ORDINANCE, ARTICLE 6.30.01, THE FOLLOWING CONDITIONS MUST BE MET FOR ALL REZONINGS (must meet all of these):

THE PROPOSED AMENDMENT SHALL BE NECESSARY BECAUSE OF SUBSTANTIALLY CHANGED OR CHANGING CONDITIONS IN THE AREA AND DISTRICTS AFFECTED, OR IN THE CITY/COUNTY GENERALLY:

1. Near this property to the west there is significant ongoing office park and business park development, providing job hubs which may draw more residents to the area seeking closer proximity to employment. Multifamily residential development is anticipated at the intersection of Mabry Hood Road and Dutchtown Road.
2. These changing conditions support consideration of an increase in residential intensity at this location through the PR (Planned Residential) zone, where there is growing workforce opportunity and residential development.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH THE INTENT AND PURPOSE OF THE APPLICABLE ZONING ORDINANCE

1. The PR zone is intended to provide optional methods of land development that are responsive to environmental issues on a property. Residential density can be clustered in the more accommodating areas of a lot to preserve more environmentally sensitive areas.
2. The topographic data on KGIS reveals that there are five large closed contours on the lot, which could be evidence of sinkholes. Sinkholes can significantly impact the development potential of a site. Considering the size and quantity of potential sinkholes here, staff recommend limiting the density to no more than 5 du/ac, rather than the 8.5 du/ac requested.

PROPOSED AMENDMENT SHALL NOT ADVERSELY AFFECT ANY OTHER PART OF THE COUNTY, NOR SHALL ANY DIRECT OR INDIRECT ADVERSE EFFECTS RESULT FROM SUCH AMENDMENT:

1. Hall Road and Annis May Lane are unstriped, narrow residential streets, but the property sits a very short distance from Dutchtown Road, which is a minor arterial street with sidewalks and a center turn lane.
2. There is a diverse mix of uses surrounding the lot, including a mobile home park, an auto salvage yard, an office warehouse, a landscaping company, a church, and single-family detached residences. Residential development at this location is not anticipated to have an adverse impact on surrounding properties.

THE PROPOSED AMENDMENT SHALL BE CONSISTENT WITH AND NOT IN CONFLICT WITH THE COMPREHENSIVE PLAN OF KNOX COUNTY, INCLUDING ANY OF ITS ELEMENTS, MAJOR ROAD PLAN, LAND USE PLAN, COMMUNITY FACILITIES PLAN, AND OTHERS:

1. A rezoning to PR at 5 du/ac is a partially related zone in the SMR (Suburban Mixed Residential) place type designation on this property in the Comprehensive Plan. It meets the additional criteria required of a partially related zone by being consistent with the secondary uses of the SMR place type. SMR contemplates a greater mix of housing types including multiplexes and townhouses at a house-like scale. The PR zone at 5 du/ac would accomplish this, especially considering the clustering of overall density that is likely to occur with the geotechnical conditions on this lot.
2. Reducing the PR density from 8.5 du/ac to 5 du/ac is consistent with the Comprehensive Plan's Implementation Policy 7 to encourage development practices that conserve and connect natural features and habitat. This lot is entirely wooded with natural sunken features that are not conducive to over-development. A lower density reduces the pressure to over-develop what appears to be an ecologically sensitive area.

ESTIMATED TRAFFIC IMPACT: 798 (average daily vehicle trips)

Average Daily Vehicle Trips are computed using national average trip rates reported in the latest edition of "Trip Generation," published by the Institute of Transportation Engineers. Average Daily Vehicle Trips represent the total number of trips that a particular land use can be expected to generate during a 24-hour day (Monday through Friday), with a "trip" counted each time a vehicle enters or exits a proposed development.

ESTIMATED STUDENT YIELD: 5 (public school children, grades K-12)

Schools affected by this proposal: Cedar Bluff Elementary, Cedar Bluff Middle, and Hardin Valley Academy.

- Potential new school population is estimated using locally-derived data on public school student yield generated by new housing.
- Students are assigned to schools based on current attendance zones as determined by Knox County Schools. Students may request transfers to different zones, and zone boundaries are subject to change.
- Estimates presume full build-out of the proposed development. Build-out is subject to market forces, and timing varies widely from proposal to proposal.
- Student yields from new development do not reflect a net addition of children in schools. Additions occur incrementally over the build-out period. New students may replace current population that ages through the system or moves from the attendance zone.

If approved, this item will be forwarded to Knox County Commission for action on 3/24/2025. If denied, Knoxville-Knox County Planning Commission's action is final, unless the action to deny is appealed to Knox County Commission. The date of the appeal hearing will depend on when the appeal application is filed. Appellants have 30 days to appeal a Planning Commission decision in the County.
