

I am writing you this email with my firm OBJECTION to two current requests for re-zoning in the Karns area on Zion Lane, off of Ball Rd:

- 1) Request for vegetation (9-A-20-RZ)
- 2) Multi-family residential re-zoning (11-F-20-UR)

One of our neighbors attended an information exchange meeting hosted by Angelic Ministries on November 2, 2020 regarding their intent (purchase pending) for the re-zoning request so they can locate a Boarding House on this property. This “Boarding House” is actually a “Rehabilitation Facility” based on Angelic Ministries’ own description. It was described as a place where detoxed addicts would go when they are not yet ready to re-enter society.

I have a huge concern regarding this project due to the potential unsafe environment that it can create around our neighborhood because of the lack experience and special training of the leadership to run such an establishment. It is too close to our subdivision which has 62 middle class homes for families with small children playing outside.

If this re-zoning is allowed, I truly believe it can affect negatively impact our family life and de-value our properties.

Once again, I want to re-iterate my firm OBJECTION to these two re-zoning requests for the concern of our kid's safety and home. This type of establishment does not belong to high-capacity residential area because of the potential risk and outcome ahead.

Before taking any further action, please take the time to consider my email and evaluate the risk and the danger that it can put our neighborhood in and think of it as yours.
