

Good evening. I am writing you this evening to voice my concerns and objections over this proposal. I live in the Edwards Place subdivision on Forest Willow Lane. I bought this house for the perks this neighborhood had. It was a quiet street, not on a major road, not a lot of traffic, nobody behind us, and nice people in our neighbors. I've heard several versions of what this developer could be building, and that this is basically the apartments proposal, just actual detached housing. I've also heard section 8 and low income. I'm worried the last two categories would attract the wrong people, such as criminals, drug dealers or the drug addicted, which does not bode well with me, for several reasons. Primarily, it'd be in close proximity to the middle and elementary schools, which my kids go to. Other concerns would be the construction noises and the mess along with it, increased traffic thru this quiet neighborhood (I've heard there would be an access point thru here), and just bad curb appeal. Personally, I'd much rather see Edwards Place further developed on that land. Maybe with a playground, or a community pool, a greenway, I'd even take a driving range for golf. I spent a lot of money in buying my family's dream home, and I'd like to retain its value. I could be way off base here, but I'd rather be way off base in voicing my concerns and objections, than keeping them to myself. I know a lot of my fellow neighbors would agree.

Thank you for your time and consideration.

Nick Glaser
