Dear Resident

Petition urging the Knox County Commission to deny Angelic Ministries request to operate a “Men’s Boarding Home” at 3430 Zion Lane

This is to be a “residential” home of up to 12 residents plus 2 staff members to provide “support for people getting back on their feet”. If this property is approved to operate this would open the door to any type of offenders.

These residents have been incarcerated and/or referred thru other avenues to work on goals to assist in re-entering society. By Angelic Ministries’ own admission, this facility will provide an environment for men who are not currently able to rejoin the community on their own. They will also not be forced to stay on the property. This facility will be highly transient as residents enter and exit the program at different times. There are NO “Security” officers present at the facility, only staff thru Angelic Ministries.

The only reason this location has been chosen is because it’s a pre-existing facility. There are no other reasonable considerations for this facility to be located on Zion Lane considering its proximity to any public resources provided by Knox County, Knoxville, or the State of Tennessee.

Due to the hundreds of single family homes with children within proximity of 3430 Zion Lane, our concern for our families is great due to the adverse problems a home like this would bring to our community.

Our concern is great due to this proposed facility.

Please feel free to sign the petition if interested in keeping the Karns community safe.
