

Rezoning Case Number 11-f-21-rz

<https://www.thepetitionsite.com/962/421/531/rezoning-case-number-11-f-21-rz/>

Author: Bradley Russell

Recipient: Knox County Planning Commission

Petition:

All those who sign this petition are stating that they are **Against** the **rezoning** and **growth plan amendment** regarding the property development at 8802 Sevierville Pike Knoxville Tn. The total area of development is now 158.64 acres and is currently zoned a mixture of Commercial and Agricultural. The developer plans to rezone the entire property to Planned Residential with a density of approximately 3 houses per square acre with the total number being 475 single family lots with entry points on Old Sevierville Pike and Valgro Road. Those who have signed this petition feel that this type of development would be unbeneficial to our community and would only worsen traffic, crime, and safety concerns along this bottle neck section of Chapman highway between Knox and Sevier Counties.

8.	Martha L	Seymour, TN	If this were to happen it would destroy this beautiful area and traffic would be horrible, even more than it is now. Chapman Highway would become even more deadly.
9.	Brigitte S	Seymour, TN	
10.	Shannon T	Sevierville, TN	This area needs to remain rural!! You are destroying the farm land we have left
11.	Avery S	Seymour, TN	I've never lived out of the Seymour area. Seymour is losing its small hometown kind of feel with large development and tons of people moving in from out of state and running the original settlers out. Seymour doesn't need any more home developments in the style of a neighborhood. What happen to all the rural areas? They are all being developed. Before long there will be no more rural at all.
12.	Lori L	Seymour, TN	Seymour is not a large town. We are already plum full, especially with all of the tourist running through here on their way to Pigeon Forge/Gatlinburg. The roads are already congested and bringing this many more people here will make it almost impossible to get around, not to mention, a lot more dangerous..

28.	Bob m	Seymour, TN	I am concerned for the safety of my family traveling on Chapman highway. Even with the the road expansion it will not be safe with approximately two subdivision going on and both side of the highway. With at least 450 houses. And our county schools are overlying crowded. Our kids will learn less! It's not always about the tax dollars. Thanks,
29.	Kristi W	KnoxvilleKnoxville, TN	Traffic will be worse than it is now, we don't need more new homes! Leave the farm land alone
30.	Ellen Z	Seymour, TN	Chapman Highway is already a very dangerous road. Adding 227 homes and allowing between 225-500 cars to be on Chapman is unconscionable! The rural feel is what attracted us. Yes, we were from out of state, BUT we bought an existing 25 year old home!

32.	Suzan B	SEYMOUR, TN	Please consider the impact that this many houses (and cars) will have on an already congested highway that not only bears local traffic but an increasing number of tourist vehicles. It is time to declare a moratorium on any further development until the infrastructure and school system can catch up to the already overcrowded situation in South Knoxville and Seymour. Please say no to the development in its present form.
33.	Herschel L	Seymour, TN	Roads and Traffic
34.	Tammera L	Seymour, TN	We do not need more crowds, higher population and increased traffic. Additional housing that only populates and crowds Seymour is not welcome. People have Knoxville, Sevierville and Pigeon Forge for folks who want to live in crowded communities.
35.	Shawn F	Seymour, TN	
36.	Diana F	Seymour, TN	Our family loves this town because of its small town feel and it's beauty. In the time we have been here so much has changed and the town can barely keep up. Please keep Seymour a small town, it's what makes it so beautiful and special.

38.	Tracy B	Knoxville, TN	Bays Mnt/Old Sevierville Pike is crazy anyhow. Having this extra traffic on a \"back road\" is going to be worse. I have lived on this dead end dirt road for 10 years now and the traffic back here is crazy some days. Trust me, they aren't site seeing back here. Bringing in extra housing will give my neighbors more business. [?][?]

46.	Johnny D	Cave Creek, AZ, AZ	I have just recently purchased a home nearby and I believe this would impact the quality of life (more traffic, congestion etc) in the surrounding area. I am always fearful driving along Chapman Hwy, and I believe that more traffic could easily contribute to the lack of safety along this road.
47.	Margaret O	Knoxville, TN	Wholesale, indiscriminate clearing of hundreds trees and illegal grading on site have already severely impacted site drainage, caused excessive erosion and displaced a large amount of wildlife. Once beautiful and productive farmland is now a tangle of debris, uprooted trees and raw, eroding soil—a complete eyesore caused by an utter disregard of good land management practices. The proposed rezoning to allow for 227 proposed quarter-acre lots will destroy the rural character of this neighborhood. Associated traffic on our narrow, curving rural roads would result in extremely hazardous driving conditions. Furthermore, the current request to rezone 64+ acres is only the first of several upcoming requests to rezone 100s of acres on contiguous parcels owned by Thunder Mountain—the petitioners for rezoning—who have stated their intention to develop all of their holdings in the near future. I am completely opposed to the rezoning of this site and I respectfully request the proposed rezoning be denied.
48.	Edwina W	Seymour, TN	We are taking an area thats already over crowded and adding more to it and taken wild lifes home away

57.	Ron H	Knoxville, TN	It is very important to maintain a feeling of the beautiful countryside. If this is going to be allowed, the very least they should do is keep a wooded/green space on the road and set the houses further back.
58.	Jason S	Mt Juliet, TN	The character of the neighborhood is in jeopardy and The existing roadways would not support the amount of traffic generated from this type of development.

70.	Angel C	Seymour, TN	<i>(continued from previous page)</i> place to go. I love this place for the fact it is country and a little bit city. Put in a park. There us something better than more houses.
71.	Connie O	Knoxville, TN	My property is very close to the proposed development, and my driveway is in the middle of an S curve. A development with this many houses would bring an overwhelming and traffic addition. Parts of the road are narrow and curvy, and the increased traffic flow would make it even more dangerous than it is now. Many people who live in this area do so because of the natural beauty surrounding our community. This ridiculous proposal will destroy wildlife habitats, brings horrific traffic increases, and tries to make our community more like a city development. A development of this size is unnecessary, and brings nothing positive to the area.
72.	Hall S	Knoxville, TN	I own the property at 621 and 901 Dry Hollow Rd

76.	Wayne R	Seymour, TN	We own farm property in knox. county
77.	Tonya N	Seymour, TN	Too many people in one area destroys the rural community here. Quarter acre lots is the density of a city not the country. All this to house out of staters who move here to escape paying taxes in their own state. There\'s zero benefit for locals in this at all.
78.	Keith B	Seymour, TN	When is enough enough? When every last inch of land has been developed and the developers have made their millions packing us in like sardines? Please don't do this! Once developed, this natural beauty is gone forever.
79.	Erin Nicole H	Knoxville, TN	
80.	Joyce C	Knoxville, TN	Too many homes, big influx to population,our small community can\'t handle , large reduction of farmland, wildlife will lose habitat,no studies to show the impact of all of this ,schools,roads community not prepared for this type of growth
81.	Derrick B	Knoxville, TN	The runoff into nearby streams and creeks and the overflow of traffic onto Sevierville Pk a 2 lane road with no turn lane. And the area not having sidewalks. The impact itll have on natural wildlife will be impacted by the destruction the demo and the construction will insue. This development needs to be stopped and not be able to proceed forward

85.	Tekka C	Knoxville, TN	I live near this area. The areas schools can not handle this large of growth. Traffic is already horrible on Chapman Highway and Back roads in this area. I am concerned about what clearing this large of area will erode this area and cause more flooding. I am concerned for the rise in crime and safety of the people already living in the area.

119.	Linsey H	KNOXVILLE, TN	
120.	Michelle G	Knoxville, TN	Moving to this state was a decision made to give my daughter a better quality of life. Living rural is something incredibly important we do our best to grow vegetables our neighbors raise animals we try to protect this land. Our school system is overwhelmed our building is older and traffic is heavy throughout pick-up and drop-off times. It would be a great sacrifice to our community, with zero investment put forth from the buyer's / landowners to better the community before asking us to sacrifice so much. East Tennessee was blessed with a responsibility to take care of the mountains. The hillside and Ridgetop protection plan has saved a great deal of erosion. Glass Knob Ridge is our responsibility to protect.
121.	Carmen S	Seymour, TN	People live here to not live in a city environment. Chapman Hwy can't take that much traffic in that area...even with the "improvements", it's still an accident waiting to happen every day

127.	Ralph G	Knoxville, TN	To much traffic
128.	Jennifer S	Knoxville, TN	This area is beautiful and quiet. I love seeing all the wildlife and Bower fields is the only park my kids can go to locally. This type of development will kill what makes this area so special. And, as others mentioned, does not benefit the community.
129.	Jo Ann D	Knoxville, TN	Don't want all the traffic and don't want the land destroyed. Also don't want all the noise
130.	Karen W	Knoxville, TN	I moved to a rural area because I wanted to be away from all the noise, traffic, and congestion. Please don't destroy the quiet of South Knoxville
131.	Rachel B	Seymour, TN	Please do not destroy these natural animal habitats. I was raised on this road and hate to see all the wildlife destroyed.
132.	Peters J	Knoxville, TN	I live on Dry Hollow. The destruction to the woods and area surrounding is being torn up. The traffic alone will be even worse, making the roads even more dangerous.

And when I was little my family helped other families form the Bays Mountain Riding club and the riding ring was there where you\'re wanting to put houses years ago.so much firmly and has already been taken over by new subdivisions and developments and it\'s time to stop and just listen to some people that live in the area and want to stop it.

148.	Steven S	Seymour, TN	It will interfere with my community and commute. Our roads can\'t handle the traffic we have now.
149.	Mccoy D	Seymour, TN	This area is so over populated now that it will just add to the problems . Road and schools are at capacity.
150.	Grace P	Seymour, TN	
151.	Cynthia H	Knoxville, TN	Chapman Highway & Sevierville Pike cannot accommodate the traffic that the 1st phase, let alone all the other phases will create. When there is a wreck on Chapman Highway all Chapman Highway traffic is diverted to Hendron then back to Sevierville Pike. We have a lot of wildlife & a bat cave this would also affect.
152.	Tyus T	Seymour, TN	It\'s the community I live in and 4 houses per acre is not in Seymour\'s best interest in my opinion. It\'s a developer simply trying to overdeveloped a small area.

We don't need houses anymore. There are plenty of lands that you can choose from. That lane is truly special and it has beautiful view. It's going to hurt us who lives there. The crime will go up and up after houses are built. Move to somewhere else, please.
160.	Kaitlyn B	Heiskell, TN	It would going to cause really bad traffic on Chapman Highway and can hurt their school/work commute.

I moved here from a suburb in Atlanta Georgia to enjoy the beauty of nature. If we don't protect it, like in Georgia we will lose a lot. Thanks
167.	Lisa R	Knoxville, TN	Major concern with Traffic, wildlife preservation, land erosion, flooding . What's the average price of the house?
168.	Jordan S	KnoxvilleKnoxville, TN	
169.	Neal H	Knoxville, TN	Should the housing be approved, the whole community will be changed, and not for the better. Unfortunately, all government sees any more is dollar signs. I'm sure some will say this will only generate more tax revenue for the county. What they don't think about is, at what cost? We've all seen family farms being lost due to younger generations not willing to work the land or trying to preserve the natural beauty given to us. People have given in to land developers who could care less what they do to the land or community. They move in, build as many homes as they can squeeze in on the land and then leave. Once they have their money, they simply move in to repeat the process. We all must realize protecting land in its natural state should be a priority. <i>(continues on next page)</i>

169.	Neal H	Knoxville, TN	<i>(continued from previous page)</i> There are plenty of vacant buildings which have been sitting empty for decades in the city and county. What local officials need to be doing is reclaiming that already developed land, tear down or refurbish existing buildings and use them for housing. Do not sacrifice the feel of this community for greed. Preserve what we have while we still can.
170.	Chesney B	Seymour, TN	I have lived here my whole life. This is one of the areas of the highway that has always been extremely dangerous. Adding that many houses will only serve to cause more harm than good. It is nice to know that people want to live here but part of the charm is the small community. If we don't stop building houses upon houses, this community will no longer be small and the beauty will be taken by houses and all that comes with it.
171.	Jim D	Knoxville, TN	To much traffic in this area already, will eventually lose a very old and well used ball fields for the kids, and there is another large development going in on highland view!

175.	Hobbs J	Seymour, TN	
176.	Steve H	Knoxville, TN	Traffic (roads can not handle), natural water impacts to well and streams, wild life (turkey, deer), decrease in property value (will be submitting request to reduce assessment)
177.	Ryan H	Knoxville, TN	The road where they would be putting the entrance cannot handle the kind of traffic that neighborhood would produce. Also our little area is beautiful there, and it's great for the wildlife.
178.	Carolyn S	Seymour, TN	It will create too much traffic and our school are already overloaded.
179.	Kevin T	Seymour, TN	That area cannot handle the traffic. It is already congested. This would make Chapman hwy more dangerous to drive and a hazard to the community.
180.	Beth R	Knoxville, TN	A few weeks ago, I watched from my front porch as some idiot going at least 50mph hit a deer crossing the road! There are so many deer, turkeys, and other wildlife here that would be lost forever with such an expansion. Destroying the land and polluting the water will hurt us humans as well, but developers never have to live with the consequences of their destruction. They just take the money and run! The speed limit on Sevierville Pike is 35 and is not adhered to as it is. When Chapman Hwy traffic is diverted for an accident (which already happens so very often) the increased traffic on Sevierville Pike is nearly impossible to <i>(continues on next page)</i>

181.	Angie K	Knoxville, TN	<p>I am against the increased traffic and congestion in the area I live. Non-residents already use our roads to bypass Chapman traffic and speed, litter and disregard the safety of us residents. I also do not want to see more beautiful agricultural land packed with homes and taking away wildlife resources.</p>
182.	Cynthia O	Knoxville, TN	<p>This area has been my family home since 1970. My youngest sister and I bought our home place together after the passing of our Mother in 2003. We have always loved the woods behind us as we have seen Turkey, deer, squirrels and all kinds of wildlife. It would be such a shame to ruin this. My siblings and I always enjoyed playing in the woods and creek while growing up and even attended the rodeos & horse shows in the field behind. Mrs. Bowers and her caretaker were always so good to my Mother anytime she would contact them about a fallen tree or injured cow. Please do not ruin our beautiful area with a view of 4 homes per acre as far as you can see.</p>

194.	Leigh F	Knoxville, TN	Our roads can not handle the increase in traffic and remain safe
195.	Brad W	Knoxville, TN	I have lived in this community for 35 years , it's been peaceful for the most part growing up besides a few problems , there use to be no wildlife around here at all , now there are lots of deer and turkey , they start destroying trees fields putting in new sewer lines more roads , it creates more trash , more pollution, we don't want or need more people moving into this little community , causing more police to have to work harder to keep up an apartment/ home community , more violence , more problems in general , your taking away another piece of what little bit of country in the county that there is left , and it needs to stop period !!!!!
196.	Meredith H	Seymour, TN	The abundance of beautiful, open land we used to have in this area was priceless! Now someone wants to put yet another residential development on top of it!? PLEASE STOP! We'll never get back what's lost in such a process!
197.	Olivia S	Knoxville, TN	The natural land in this area is so perfect in its untouched state. It is a breath of fresh air to see land not crawling with people and packed with houses. It is wonderful to see the South Knoxville/Seymour area growing. It is equally wonderful to still be able to look around and see green fields and trees.
198.	Kacie W	Knoxville, TN	1. Would be too much traffic on sevierville pike 2. Would take away from the beautiful rural farming scenery that Tennessee is adored for. 3. It would drive out wildlife like deer for the local hunters.
199.	Erica W	Knoxville, TN	My family lives here and traffic would be horrible!!!!!!

204.	Sarah C	Seymour, TN	This is not needed in our beautiful rural community. In the past month hundreds of trees have been cut and tons of wild life lost their homes. Our community does not need another housing complex. They are destroying our tight knit rural town. Totally against this rezoning. Keep it as it was and don't destroy anymore land!

227.	Gail F	Seymour, TN	We are AGAINST rezoning 8802 Sevierville Pike Knoxville TN. We have a peaceful rural community and this development is detrimental to our community. If implemented as requested those individuals will eventually spill onto Chapman Highway which is treacherous today and will create greater safety concerns for the future. We in Seymour wish to maintain the beauty of this area we are so fortunate to have. Please STOP this development.
228.	Hannah S	Knoxville, TN	I live in the area, this would increase traffic not only on Chapman highway but also on Sevierville pike. The intersection of Sevierville and Hendron chapel already has enough accidents! This not to mention the effects to wildlife and the rural surroundings we enjoy.

266.	Marcy H	Knoxville, TN	The destruction that has started and is being planned is a horrible decision for the community, the environment and our childrens future. Already, no consideration to the property lines has been shown, poor logging practices and soil erosion are occurring before the plan has even been approved. Wild life is being distributed, deer, raccoons, bat caves, etc. We choose to live in a rural area and most families that surround the proposed rezoning aeas have called this home for years. Some of the main concerns include crime, negative effects to the environment wildlife and creek disturbance, schools over crowded and unnecessary traffic. Please, listen to the people of the community that have proudly lived here, supporting the community.
267.	Daniel M	Knoxville, TN	Increase to congestion on the already dangerous Chapman Highway. Will need more schools, more fire and emergency support. A tax nightmare. Will not benefit the community, area appeal, and could deplete property values in surrounding homes.

271.	Shannon M	KnoxvilleKnoxville, TN	Too many houses coming in the area, traffic will be horrible
272.	Brittany M	Knoxville, TN	My family has lived in this area for many generations and in recent years, I've been horrified by the real threat of urban sprawl in these foothills. During the last housing boom, just across the county line and very near where this development hopes to be, lies Seymour. Once a truly small town full of farm lands, it's now the victim of cookie cutter subdivisions built in favor of convenience and consumerism. Now, that area of Chapman Highway, from South Knoxville and on up toward Sevierville is a congested mess, lined with fast food and gas stations - but not much in the name of preservation, historical reclmation, or nature. Cramming four houses to an acre will not only make a gruesome eyesore, but it will also create more risk on an already dangerous section of Chapman Highway, a strain on emergency workers, and require other types of infastructure that will deplete tax dollars (schools, more road improvements) and will eventually flood the local market with homes that could destroy area property values. People may live like this out west or in large cities, one on top of the other with no thought to the natural beauty of their state. But this is East Tennessee. People leave those places to come here to discover a sense of community, simple values, and wonder. <i>(continues on next page)</i>

291.	Blake P	Knoxville, TN	The addition to the proposed development is adjacent to our property line. 312.	Amy D	Knoxville, TN	The already dangerous Chapman Hwy. will become more treacherous. Sevierville Pk is narrow and winding and could never handle the number of cars coming and going from this development and the intersection of Hendron Chapel and Sevierville Pk. already has several wrecks a week. I am worried for my family, friends and our neighbors safety.
313.	Karen S	Seymour, TN	Over population. Grocery stores can't carry what's here now. Traffic is bad now. Weekends with tourist traffic is awful...can't imagine it being that bad everyday. Over development of the area.

335.	Rachel H	Seymour, TN	This will ruin the wildlife living the area. This is not wanted Chapman highway already has enough traffic and fatalities on the highway.
336.	Michael P	Knoxville, TN	This will increase traffic and destroy an area that's supposed to be under hillside protection. Also this a rural area and was to stay that way according to the planning commission's own plans.
337.	Judy B	Knoxville, TN	We have too many cracker box houses that are too close to one another. It looks awful and to get better schools we have to offer higher quality homes so more families will come to South Knoxville
338.	Sharon W	Seymour, TN	
339.	Linda C	Knoxville, TN	
340.	Craig H	Knoxville, TN	Our road system along with schools in area are not prepared for all the additional traffic and social needs that will be added by this build. Perfect example is what happening now on Highland View Dr. This road has posted speed of 35MPH. Cars speed up and down this road to go to Chapman Highway and subdivision now in place on Simpson road. Another subdivision is being built with 150 homes with one road in and one road out that comes onto Highland View. Even if only one car leaves each home everyday that is 300 additional cars trips a day on this road. The county should have upgraded the travel roads prior to approval of this project and should do the same prior to approval of any other construction being done to allow more traffic to this area of the county. None of the people building these subdivisions care about people only the money to be made.
341.	Diane D	Seymour, TN	It will create too much traffic in the Seymour area.They wasted time fixing the Chapman highway reconstruction. This will double ,I'm guessing , the traffic in our area.I live off Boyds Creek and you cannot even get onto the road it's so crowded. I vote no
342.	Johnny G	Knoxville, TN	I grew up here.
343.	Tim H	KNOXVILLE, TN	As a lifelong resident of Knoxville, I've seen this pattern too many times. Many of you can recall when Farragut was a mostly rural community; do you truly wish South Knoxville to become the same? Choked with traffic, bulldozed to the ground, with no semblance of individual character remaining? Economic pressures will probably make any effort to slow the development of our area nonsensical, but we should make the attempt.

351.	Janice Z	Knoxville, TN	Chapman hwy is already too dangerous. Wildlife is important, rural is important
352.	Terra S	Maryville, TN	I visit friends who live right across from this mess. What a eyesore! The beautiful farm with mature trees is now a bunch of mud/dirt. Chapman Hwy is one if the MOST dangerous roads in the State, now they want to add 400 plus more homes and add that traffic. Keep this area an agriculture area!!!
353.	Rebecca G	Knoxville, TN	The wild life, and because Chapman highway is already a wreck zone and making this rezone will make that matter worse.
354.	Joanne C	Knoxville, TN	We have no infrastructure to support this expansion and the others like popping up in this same area.
355.	Danielle N	Knoxville, TN	We need to save our rural areas and protect wildlife corridors. Knoxville has too much sprawl without supporting infrastructure. Keep this development in high density areas, not rural zoned areas in the county.

372.	Ann Y	Knoxville, TN	I want a voice in this matter, since the meeting is during my work hours and I am unable to attend. All this rezoning will do is create heavier traffic than we are already experiencing, more litter, rise in crime and all because someone is greedy. We moved here because it is a rural area and has a hometown feel. Please don't cram all these houses into our folksy neighborhoods.
373.	Sue C	Knoxville, TN

394.	Angela S	Knoxville, TN	I live here and wanted live in an area with nature, not overcrowding.
395.	Jennifer B	Seymour, TN	Please stop all this planned development in a rural area that does not have the infrastructure to support it.
396.	Terry H	Knoxville, TN	I have lived here for 55 years and the growth will kill us. It wont take it.
397.	Linda D	Knoxville, TN	I have lived in the Shooks Gap area 40 years. The traffic on Chapman Hwy. is bad on a daily basis. Tourist traffic is extremely heavy from Fridays to Sundays. The development of 227 homes is just too many for this amount of land. This land is not flat and water drainage has really been bad around Simpson Rd. It maybe better after the improvements. I know the development is all about making as much profit as possible, but our community will be paying for the problems created by developing this 227 homes. Like so many here in Seymour and the Higland View area, I love living in the country. This development will impact all of Seymour. But the property taxes will go to Knox County. Money talks and so do tax revenues.

400.	Cheri J	Knoxville, TN	A lot of wildlife lives in this area as well. We live in this area because it is rural.

402.	Dianne F	Knoxville, TN	Not a good area for a subdivision of this many homes.
403.	Charles H	Knoxville, TN	Wildlife will lose thier habitats and traffic on my road will increase
404.	Katrina D	Knoxville, TN	Our schools are overcrowded already we don't need this.
405.	Kathy W	Seymour, TN	Although I don't live in Know County , I am however close to the county line and with new houses means 2 or 3 cars per household and Chapman Highway can not handle much more traffic, not to mention this many people will affect our grocery stores and such. Just too many people and not <i>(continues on next page)</i>

413.	James S	Knoxville, TN	I'm not against growth but 4 houses an acre will totally change our area. The area is historically rural and putting in a development of that size will change it forever. Sevierville Pike is already a dangerous road with multiple fatal accidents every year.

416.	Shari S	Knoxville, TN	We don't want to lose our rural areas. Too many people for that area...crowded schools...crowded roads. So many animals would lose their homes!! Please NO!!!

418.	Tim T	Knoxville, TN	Too many people are moving to South Knoxville now that it is \"The popular\" place to live. Way too many apartments are being built and creating more traffic and more homeless situations. As a true south Knoxvillian we wish that developers would think about our community before their pocket book. There are ways to develop without cramming houses together and houses that look like every other house in Knoxville..no character .
