Since July 4th 1972, I have lived in this area of 3911 Gordon Smith Rd Knoxville TN 37938 for almost 50 years

I am truly against rezoning 3911 Gordon Smith RD due to the amount of traffic on this small RD. Also it would devalue existing properties. I take my granddaughter to school and travel this rd. almost Daily when I meet any oncoming traffic which is a lot, one or the other has to stop to let the other through because the road is so narrow. I am aware of several accidents that have occurred in this same area that is being proposed for rezoning. It would be more desirable for the county to take care of this problem rather than create more by having this property rezoned for multiple dwellings .

Please vote no on this proposal for rezoning this property. Thank you.

Signed
