

-I OPPOSE THE REZONING. A few weeks ago a very large tree fell across Northshore Drive and traffic was halted for many hours, any medical emergency could have resulted in tragedy.

-I OPPOSE THE REZONING. When wrecks occur it is difficult to get emergency help to victims because there is no center lane or road shoulder.

-I OPPOSE THE REZONING. Northshore Drive has to be widened to at least three lanes. This has to start immediately but there are no approved plans now.

-I OPPOSE THE REZONING. The roads are overbuilt and cannot handle any more traffic and our schools are overcrowded because of continuous high density development.

-I OPPOSE THE REZONING. Loudon County limits rural growth to two units per acre. It is time to recognize the Northshore-Choto area has been over built and more overdevelopment is a public safety hazard.

-I OPPOSE THE REZONING. I think not only is the over-development "cart before the horse" but that it's speeding down narrow, curvy roads and about to crash.

-I OPPOSE THE REZONING. Development: it's more than just building houses. Development has to include widened roads, schools, and infrastructure.

-I OPPOSE THE REZONING. An additional car on Northshore equals an additional car in Farragut. This area can't handle any more traffic.
