

## **Against The Rezoning Of All Thunder Mountain Properties. South Knoxville TN**

<https://www.thepetitionsite.com/962/421/531/rezoning-case-number-11-f-21-rz/>

Author: Bradley Russell

Recipient: Knox County Planning Commission

Petition:

All those who sign this petition are stating that they are **Against** the **rezoning of all 400 acres of Thunder Mountain Properties in South Knox County including the rezoning of Bower Field Ball Park to commercial property along with** the proposed development at 8802 Sevierville Pike Knoxville Tn. The total area of development is now 158.64 acres and is currently zoned a mixture of Commercial and Agricultural. The developer plans to rezone the entire property to Planned Residential with a density of approximately 3 houses per square acre with the total number being 475 single family lots with entry points on Old Sevierville Pike and Valgro Road. Those who have signed this petition feel that these types of developments would be unbeneficial to our community and would only worsen traffic, crime, and safety concerns along this bottle neck section of Chapman highway between Knox and Sevier Counties.

8.	Martha L	Seymour, TN	If this were to happen it would destroy this beautiful area and traffic would be horrible, even more than it is now. Chapman Highway would become even more deadly.
9.	Brigitte S	Seymour, TN	
10.	Shannon T	Sevierville, TN	This area needs to remain rural!! You are destroying the farm land we have left
11.	Avery S	Seymour, TN	I've never lived out of the Seymour area. Seymour is losing its small hometown kind of feel with large development and tons of people moving in from out of state and running the original settlers out. Seymour doesn't need any more home developments in the style of a neighborhood. What happen to all the rural areas? They are all being developed. Before long there will be no more rural at all.
12.	Lori L	Seymour, TN	Seymour is not a large town. We are already plum full, especially with all of the tourist running through here on their way to Pigeon Forge/Gatlinburg. The roads are already congested and bringing this many more people here will make it almost impossible to get around, not to mention, a lot more dangerous..

28.	Bob m	Seymour, TN	I am concerned for the safety of my family traveling on Chapman highway. Even with the the road expansion it will not be safe with approximately two subdivision going on and both side of the highway. With at least 450 houses. And our county schools are overlying crowded. Our kids will learn less! It's not always about the tax dollars. Thanks,
29.	Kristi W	KnoxvilleKnoxville, TN	Traffic will be worse than it is now, we don't need more new homes! Leave the farm land alone
30.	Ellen Z	Seymour, TN	Chapman Highway is already a very dangerous road. Adding 227 homes and allowing between 225-500 cars to be on Chapman is unconscionable! The rural feel is what attracted us. Yes, we were from out of state, BUT we bought an existing 25 year old home!

32.	Suzan B	SEYMOUR, TN	Please consider the impact that this many houses (and cars) will have on an already congested highway that not only bears local traffic but an increasing number of tourist vehicles. It is time to declare a moratorium on any further development until the infrastructure and school system can catch up to the already overcrowded situation in South Knoxville and Seymour. Please say no to the development in its present form.
33.	Herschel L	Seymour, TN	Roads and Traffic
34.	Tammera L	Seymour, TN	We do not need more crowds, higher population and increased traffic. Additional housing that only populates and crowds Seymour is not welcome. People have Knoxville, Sevierville and Pigeon Forge for folks who want to live in crowded communities.
35.	Shawn F	Seymour, TN	
36.	Diana F	Seymour, TN	Our family loves this town because of its small town feel and it's beauty. In the time we have been here so much has changed and the town can barely keep up. Please keep Seymour a small town, it's what makes it so beautiful and special.

38.	Tracy B	Knoxville, TN	Bays Mnt/Old Sevierville Pike is crazy anyhow. Having this extra traffic on a "back road" is going to be worse. I have lived on this dead end dirt road for 10 years now and the traffic back here is crazy some days. Trust me, they aren't site seeing back here. Bringing in extra housing will give my neighbors more business. [?][?]

46.	Johnny D	Cave Creek, AZ, AZ	I have just recently purchased a home nearby and I believe this would impact the quality of life ( more traffic, congestion etc ) in the surrounding area. I am always fearful driving along Chapman Hwy, and I believe that more traffic could easily contribute to the lack of safety along this road.
47.	Margaret O	Knoxville, TN	Wholesale, indiscriminate clearing of hundreds trees and illegal grading on site have already severely impacted site drainage, caused excessive erosion and displaced a large amount of wildlife. Once beautiful and productive farmland is now a tangle of debris, uprooted trees and raw, eroding soil—a complete eyesore caused by an utter disregard of good land management practices. The proposed rezoning to allow for 227 proposed quarter-acre lots will destroy the rural character of this neighborhood. Associated traffic on our narrow, curving rural roads would result in extremely hazardous driving conditions. Furthermore, the current request to rezone 64+ acres is only the first of several upcoming requests to rezone 100s of acres on contiguous parcels owned by Thunder Mountain—the petitioners for rezoning—who have stated their intention to develop all of their holdings in the near future. I am completely opposed to the rezoning of this site and I respectfully request the proposed rezoning be denied.

57.	Anonymous	Knoxville, TN	It is very important to maintain a feeling of the beautiful countryside. If this is going to be allowed, the very least they should do is keep a wooded/green space on the road and set the houses further back.

71.	Connie O	Knoxville, TN	My property is very close to the proposed development, and my driveway is in the middle of an S curve. A development with this many houses would bring an overwhelming and traffic addition. Parts of the road are narrow and curvy, and the increased traffic flow would make it even more dangerous than it is now. Many people who live in this area do so because of the natural beauty surrounding our community. This ridiculous proposal will destroy wildlife habitats, brings horrific traffic increases, and tries to make our community more like a city development. A development of this size is unnecessary, and brings nothing positive to the area.
72.	Hall S	Knoxville, TN	I own the property at 621 and 901 Dry Hollow Rd

76.	Wayne R	Seymour, TN	We own farm property in knox. county
77.	Tonya N	Seymour, TN	Too many people in one area destroys the rural community here. Quarter acre lots is the density of a city not the country. All this to house out of staters who move here to escape paying taxes in their own state. There's zero benefit for locals in this at all.
78.	Keith B	Seymour, TN	When is enough enough? When every last inch of land has been developed and the developers have made their millions packing us in like sardines? Please don't do this! Once developed, this natural beauty is gone forever.
79.	Erin Nicole H	Knoxville, TN	
80.	Joyce C	Knoxville, TN	Too many homes, big influx to population,our small community can't handle , large reduction of farmland, wildlife will lose habitat,no studies to show the impact of all of this ,schools,roads community not prepared for this type of growth
81.	Derrick B	Knoxville, TN	The runoff into nearby streams and creeks and the overflow of traffic onto Sevierville Pk a 2 lane road with no turn lane. And the area not having sidewalks. The impact itll have on natural wildlife will be impacted by the destruction the demo and the construction will insue. This development needs to be stopped and not be able to proceed forward

120.	Michelle G	Knoxville, TN	Moving to this state was a decision made to give my daughter a better quality of life. Living rural is something incredibly important we do our best to grow vegetables our neighbors raise animals we try to protect this land. Our school system is overwhelmed our building is older and traffic is heavy throughout pick-up and drop-off times. It would be a great sacrifice to our community, with zero investment put forth from the buyer's / landowners to better the community before asking us to sacrifice so much. East Tennessee was blessed with a responsibility to take care of the mountains. The hillside and Ridgetop protection plan has saved a great deal of erosion. Glass Knob Ridge is our responsibility to protect.
121.	Anonymous	Seymour, TN	People live here to not live in a city environment. Chapman Hwy can't take that much traffic in that area...even with the "improvements", it's still an accident waiting to happen every day

127.	Ralph G	Knoxville, TN	To much traffic
128.	Jennifer S	Knoxville, TN	This area is beautiful and quiet. I love seeing all the wildlife and Bower fields is the only park my kids can go to locally. This type of development will kill what makes this area so special. And, as others mentioned, does not benefit the community.
129.	Jo Ann D	Knoxville, TN	Don't want all the traffic and don't want the land destroyed. Also don't want all the noise

131.	Rachel B	Seymour, TN	Please do not destroy these natural animal habitats. I was raised on this road and hate to see all the wildlife destroyed.
132.	Peters J	Knoxville, TN	I live on Dry Hollow. The destruction to the woods and area surrounding is being torn up. The traffic alone will be even worse, making the roads even more dangerous.

150.	Grace P	Seymour, TN	
151.	Cynthia H	Knoxville, TN	Chapman Highway & Sevierville Pike cannot accommodate the traffic that the 1st phase, let alone all the other phases will create. When there is a wreck on Chapman Highway all Chapman Highway traffic is diverted to Hendron then back to Sevierville Pike. We have a lot of wildlife & a bat cave this would also affect.
152.	Tyus T	Seymour, TN	It's the community I live in and 4 houses per acre is not in Seymour's best interest in my opinion. It's a developer simply trying to overdeveloped a small area.

We don't need houses anymore. There are plenty of lands that you can choose from. That lane is truly special and it has beautiful view. It's going to hurt us who lives there. The crime will go up and up after houses are built. Move to somewhere else, please.

168.	Jordan S	KnoxvilleKnoxville, TN	
169.	Neal H	Knoxville, TN	Should the housing be approved, the whole community will be changed, and not for the better. Unfortunately, all government sees any more is dollar signs. I'm sure some will say this will only generate more tax revenue for the county. What they don't think about is, at what cost? We've all seen family farms being lost due to younger generations not willing to work the land or trying to preserve the natural beauty given to us. People have given in to land developers who could care less what they do to the land or community. They move in, build as many homes as they can squeeze in on the land and then leave. Once they have their money, they simply move in to repeat the process. We all must realize protecting land in its natural state should be a priority. <i>(continues on next page)</i>

169.	Neal H	Knoxville, TN	<i>(continued from previous page)</i> There are plenty of vacant buildings which have been sitting empty for decades in the city and county. What local officials need to be doing is reclaiming that already developed land, tear down or refurbish existing buildings and use them for housing. Do not sacrifice the feel of this community for greed. Preserve what we have while we still can.
170.	Chesney B	Seymour, TN	I have lived here my whole life. This is one of the areas of the highway that has always been extremely dangerous. Adding that many houses will only serve to cause more harm than good. It is nice to know that people want to live here but part of the charm is the small community. If we don't stop building houses upon houses, this community will no longer be small and the beauty will be taken by houses and all that comes with it.
171.	Jim D	Knoxville, TN	To much traffic in this area already, will eventually lose a very old and well used ball fields for the kids, and there is another large development going in on highland view!

176.	Steve H	Knoxville, TN	Traffic (roads can not handle), natural water impacts to well and streams, wild life (turkey, deer), decrease in property value (will be submitting request to reduce assessment)
177.	Ryan H	Knoxville, TN	The road where they would be putting the entrance cannot handle the kind of traffic that neighborhood would produce. Also our little area is beautiful there, and it's great for the wildlife.
178.	Carolyn S	Seymour, TN	It will create too much traffic and our school are already overloaded.
179.	Kevin T	Seymour, TN	That area cannot handle the traffic. It is already congested. This would make Chapman hwy more dangerous to drive and a hazard to the community.
180.	Beth R	Knoxville, TN	A few weeks ago, I watched from my front porch as some idiot going at least 50mph hit a deer crossing the road! There are so many deer, turkeys, and other wildlife here that would be lost forever with such an expansion. Destroying the land and polluting the water will hurt us humans as well, but developers never have to live with the consequences of their destruction. They just take the money and run! 182.	Cynthia O	Knoxville, TN	<p>This area has been my family home since 1970. My youngest sister and I bought our home place together after the passing of our Mother in 2003. We have always loved the woods behind us as we have seen Turkey, deer, squirrels and all kinds of wildlife. It would be such a shame to ruin this. My siblings and I always enjoyed playing in the woods and creek while growing up and even attended the rodeos &amp; horse shows in the field behind. Mrs. Bowers and her caretaker were always so good to my Mother anytime she would contact them about a fallen tree or injured cow. Please do not ruin our beautiful area with a view of 4 homes per acre as far as you can see.</p>

194.	Leigh F	Knoxville, TN	Our roads can not handle the increase in traffic and remain safe
195.	Brad W	Knoxville, TN	I have lived in this community for 35 years , it's been peaceful for the most part growing up besides a few problems , there use to be no wildlife around here at all , now there are lots of deer and turkey , they start destroying trees fields putting in new sewer lines more roads , it creates more trash , more pollution, we don't want or need more people moving into this little community , causing more police to have to work harder to keep up an apartment/ home community , more violence , more problems in general , your taking away another piece of what little bit of country in the county that there is left , and it needs to stop period !!!!!
196.	Meredith H	Seymour, TN	The abundance of beautiful, open land we used to have in this area was priceless! Now someone wants to put yet another residential development on top of it!? PLEASE STOP! We'll never get back what's lost in such a process!
197.	Olivia S	Knoxville, TN	The natural land in this area is so perfect in its untouched state. It is a breath of fresh air to see land not crawling with people and packed with houses. It is wonderful to see the South Knoxville/Seymour area growing. It is equally wonderful to still be able to look around and see green fields and trees.
198.	Kacie W	Knoxville, TN	1. Would be too much traffic on sevierville pike 2. Would take away from the beautiful rural farming scenery that Tennessee is adored for. 3. It would drive out wildlife like deer for the local hunters.
199.	Erica W	Knoxville, TN	My family lives here and traffic would be horrible!!!!!!

203.	Melissa L	Seymour, TN	This development will be close enough to my home and on my commute and cause extra traffic and delays. Not to mention the eyesore it will be and potentially cause a dip in proper values for the entire area.
204.	Sarah C	Seymour, TN	This is not needed in our beautiful rural community. In the past month hundreds of trees have been cut and tons of wild life lost their homes. Our community does not need another housing complex. They are destroying our tight knit rural town. Totally against this rezoning. Keep it as it was and don't destroy anymore land!

We in Seymour wish to maintain the beauty of this area we are so fortunate to have. Please STOP this development.
228.	Hannah S	Knoxville, TN	I live in the area, this would increase traffic not only on Chapman highway but also on Sevierville pike. The intersection of Sevierville and Hendron chapel already has enough accidents! This not to mention the effects to wildlife and the rural surroundings we enjoy.

266.	Marcy H	Knoxville, TN	The destruction that has started and is being planned is a horrible decision for the community, the environment and our childrens future. Already, no consideration to the property lines has been shown, poor logging practices and soil erosion are occurring before the plan has even been approved. Wild life is being distributed, deer, raccoons, bat caves, etc. We choose to live in a rural area and most families that surround the proposed rezoning aeas have called this home for years. Some of the main concerns include crime, negative effects to the environment wildlife and creek disturbance, schools over crowded and unnecessary traffic. Please, listen to the people of the community that have proudly lived here, supporting the community.
267.	Daniel M	Knoxville, TN	Increase to congestion on the already dangerous Chapman Highway. Will need more schools, more fire and emergency support. A tax nightmare. Will not benefit the community, area appeal, and could deplete property values in surrounding homes.
268.	Judy M	Holiday Island, AR	
269.	Kim M	Knoxville, TN	The ball field and area are Iconic and the field is still actively used. Find a place to build that isnt already benefiting our youth & community!

271.	Shannon M	KnoxvilleKnoxville, TN	Too many houses coming in the area, traffic will be horrible
272.	Brittany M	Knoxville, TN	My family has lived in this area for many generations and in recent years, I've been horrified by the real threat of urban sprawl in these foothills. During the last housing boom, just across the county line and very near where this development hopes to be, lies Seymour. Once a truly small town full of farm lands, it's now the victim of cookie cutter subdivisions built in favor of convenience and consumerism. Now, that area of Chapman Highway, from South Knoxville and on up toward Sevierville is a congested mess, lined with fast food and gas stations - but not much in the name of preservation, historical reclmation, or nature. Cramming four houses to an acre will not only make a gruesome eyesore, but it will also create more risk on an already dangerous section of Chapman Highway, a strain on emergency workers, and require other types of infastructure that will deplete tax dollars (schools, more road improvements) and will eventually flood the local market with homes that could destroy area property values. People may live like this out west or in large cities, one on top of the other with no thought to the natural beauty of their state. But this is East Tennessee. People leave those places to come here to discover a sense of community, simple values, and wonder. <i>(continues on next page)</i>

I am worried for my family, friends and our neighbors safety.
313.	Karen S	Seymour, TN	Over population. Grocery stores can't carry what's here now. Traffic is bad now. Weekends with tourist traffic is awful...can't imagine it being that bad everyday. Over development of the area.

335.	Rachel H	Seymour, TN	This will ruin the wildlife living the area. This is not wanted Chapman highway already has enough traffic and fatalities on the highway.
336.	Michael P	Knoxville, TN	This will increase traffic and destroy an area that's supposed to be under hillside protection. Also this a rural area and was to stay that way according to the planning commission's own plans.
337.	Judy B	Knoxville, TN	We have too many cracker box houses that are too close to one another. It looks awful and to get better schools we have to offer higher quality homes so more families will come to South Knoxville
338.	Sharon W	Seymour, TN	
339.	Linda C	Knoxville, TN	
340.	Craig H	Knoxville, TN	Our road system along with schools in area are not prepared for all the additional traffic and social needs that will be added by this build. Perfect example is what happening now on Highland View Dr. This road has posted speed of 35MPH. Cars speed up and down this road to go to Chapman Highway and subdivision now in place on Simpson road. Another subdivision is being built with 150 homes with one road in and one road out that comes onto Highland View. Even if only one car leaves each home everyday that is 300 additional cars trips a day on this road. The county should have upgraded the travel roads prior to approval of this project and should do the same prior to approval of any other construction being done to allow more traffic to this area of the county. None of the people building these subdivisions care about people only the money to be made.
341.	Diane D	Seymour, TN	It will create too much traffic in the Seymour area.They wasted time fixing the Chapman highway reconstruction. This will double ,I'm guessing , the traffic in our area.I live off Boyds Creek and you cannot even get onto the road it's so crowded. I vote no
342.	Johnny G	Knoxville, TN	I grew up here.
343.	Tim H	KNOXVILLE, TN	As a lifelong resident of Knoxville, I've seen this pattern too many times. Many of you can recall when Farragut was a mostly rural community; do you truly wish South Knoxville to become the same? Choked with traffic, bulldozed to the ground, with no semblance of individual character remaining? Economic pressures will probably make any effort to slow the development of our area nonsensical, but we should make the attempt.

351.	Janice Z	Knoxville, TN	Chapman hwy is already too dangerous. Wildlife is important, rural is important
352.	Terra S	Maryville, TN	I visit friends who live right across from this mess. What a eyesore! The beautiful farm with mature trees is now a bunch of mud/dirt. Chapman Hwy is one if the MOST dangerous roads in the State, now they want to add 400 plus more homes and add that traffic. Keep this area an agriculture area!!!
353.	Rebecca G	Knoxville, TN	The wild life, and because Chapman highway is already a wreck zone and making this rezone will make that matter worse.
354.	Joanne C	Knoxville, TN	We have no infrastructure to support this expansion and the others like popping up in this same area.
355.	Danielle N	Knoxville, TN	We need to save our rural areas and protect wildlife corridors. Knoxville has too much sprawl without supporting infrastructure. Keep this development in high density areas, not rural zoned areas in the county.

386.	Lizette W	Knoxville, TN	We moved to this area to be around the amazing wildlife and hometown feel. We need to keep our rural area for the animals as well as our children being able to grow up with the space to roam. If we add more traffic to our area we are looking for more accidents and jams.
387.	Kim H	Seymour, TN	If this development is successful the traffic on my road will increase dangerously, as it's used as a cut-through road.

397.	Linda D	Knoxville, TN	I have lived in the Shooks Gap area 40 years. The traffic on Chapman Hwy. is bad on a daily basis. Tourist traffic is extremely heavy from Fridays to Sundays. The development of 227 homes is just too many for this amount of land. This land is not flat and water drainage has really been bad around Simpson Rd. It maybe better after the improvements. I know the development is all about making as much profit as possible, but our community will be paying for the problems created by developing this 227 homes. Like so many here in Seymour and the Higland View area, I love living in the country. This development will impact all of Seymour. But the property taxes will go to Knox County. Money talks and so do tax revenues.

510.	Richard G	Knoxville, TN	This is important to me because we decided to live in a rural area and the tranquility and peace of mind that we have will be substantially and forever impacted by the rezoning proposal. 512.	Kelven M	Knoxville, TN	Nearly 2000 homes in this total development equates to about 4000 cars and 8000 people. 576.	Dana M	Seymour, TN	We need to keep this area rural. I drive Sevierville Pike to John Sevier everyday for work because of how congested Chapman Hwy already is. The little bit of work has already destroyed the land for the wild life. I moved to Seymour for the "small town" living 26 yrs ago & with the growth & traffic that is now routed thru our town has made it more congested. Our school system is already over populated as well for this area. Traffic, wildlife, property values, lack of law enforcement out here on the edge of the county, are just a few eye opening reasons to not do the expansion. There are so many subdivisions popping up in areas that were/are so peaceful, the building of these homes are going to bring so much more traffic to that area which will mean the road will have to expand as well. Instead of putting the money into all the expansions, take the money and put it into updating the schools that are already over populated. Against the re zone 100%!!

583.	Ken F	Knoxville, TN	Negative impact on the land and will create problems in the traffic flow. Please keep to the original sector plan.
584.	Beth B	Seymour, TN	I do not want to see this beautiful rural area "to be rezoned for up to 2.5 dwelling units per acre on a 64-acre tract and up to one dwelling unit per acre on a 95-acre tract, "a total of 255 units with development concentrated on the flatter part of the property." Chapman Highway is a very dangerous road already. From everything I have read the community does not want this type of development in their neighborhood.
585.	Teresa B	Knoxville, TN	
586.	Matthew G	Knoxville, TN	Over population of a rural area is a safety hazard for everyone that lives there. The roads can't handle the impact, there are way too many accidents on Chapman highway as it is, why add another 800 cars to the mix! Not to mention the increase in crime, the over population of schools and the negative impact on the ecosystem.

615.	Jody R	Seymour, TN	I do not support the over development of our rural areas. This is why they are deemed rural/agricultural in the first place. This is not to make a developer a fortune at the expense of the people, roads, schools and animals who enjoy and depend upon this lifestyle of rural living. Please use smart judgement when placing this many homes on an areas and the severe impact it will make to so many! Thank you.
616.	Jeanne G	Marietta, GA	We have had similar things happen in Georgia. You buy and live in low density population, only to have a developer buy up property across the road and put in a huge development. 629.	Nick N	Karns, TN	Knox County has already lost far too much of its agricultural land. In any case there needs to be better planning and preparation of transportation, utility, and public services to deal with more people when they are already overloaded and underdeveloped! No additional residential areas should be created while there is still much free land in nearby ones that are already zoned for planned residential! Spotty development makes providing utilities, and services less efficient and more costly.

Clustering this many homes in this area will overcrowd our schools and narrow roads. The ball field is crucial to our community since it's the only one we have. The purpose of the rezoning process should be to ensure the area is improved upon for the community, not to line developers' pockets.
717.	Trish L	Knoxville , TN	If you do the research you will find that,,Chapman Highway is known to be the deadliest highway in East Tennessee. A tremendous amount of dosent have turn lanes, and is not equipped to handle any more traffic. This would be the worst mistake for the South Knoxville area.
718.	Jennifer H	Knoxville, TN	Bowers field is a great part of the community where kids have a place to play baseball and softball. Playing sports growing up give kids confidence and learn valuable skills as teamwork and gives them a sense of community. Don't take this away from them.

This is a step to eliminate another part of the little infrastructure we have currently to support the size of the community. So instead of adding infrastructure we are taking it away in the name of those with deep pockets. Growth without strategy is to lead with blinders on. Our leadership claims to be representative but consistently fails to listen to those who vote for them.

786.	Melody J	Knoxville, TN	This will bring traffic on Sevierville Pike and Chapman Highway. Sevierville Pike is too narrow to handle that much traffic. Where this traffic will come out on Chapman Highway is already an extremely dangerous road...especially at the cemetery. Finally, the schools are already too full to accommodate a new subdivision. We've had 5 new subdivisions built in the last couple of years, yet nothing has been done to accommodate those students and have not seen one single thing showing that there is an interest in improving the problem so far. What makes this subdivision any different???

804.	Karen V	Seymour, TN	I travel through this area several times a week. First, there isn't an alternative place for kids to play ball. Secondly, the increase in traffic from housing would make Chapman Highway even more dangerous than it is.
805.	Emily H	Knoxville, TN	
806.	Lakin H	Knoxville, TN	
807.	Matt L	Knoxville, TN	These ball fields are vital to our students and this community. The lessons that young people learn on these ball fields are lessons that they will take with them for the rest of their lives. Also, Chapman Hwy is not suited for adding this much residential traffic in that area.

836.	Angela G	Seymour, TN	It's a baseball field duh... it's important for the kids to have a place to play baseball there are also adult baseball teams. It brings the community together. Build your TOO CLOSE home no lawn over priced homes somewhere else. Leave the beautiful trees and green grass and let the kids and community have a place to baseball.
837.	Jessica P	Seymour , TN	My childhood. My kids. Too many people as it is. Traffic. Schools over crowded. I love my town and I want it to stay small

845.	Shane C	Knoxville, TN	This land is what makes our community so special. Destroying the land with new development leads to more people, which leads to more development. It's a never ending cycle of destruction. This is a rural area, and needs to remain as such. This land and all rural land is the foundation of our rural community and is the land of our children and future generations. Destroying that in the name of profit is unacceptable.
846.	Cleo A	Maryville, TN	I find this extremely concerning due to the fact that we are losing SO much in east tn. East TN nature AND historic areas forever being changed. We can prevent these things from happening. Keep east tn nature the way it is!

East TN is losing its appeal due to being over crowded and losing all the land . Soon it's going to become the next CA big city and it's not equipped for that

Don't take it away from them for more greed and housing developments!! Chapman highway is dangerous enough without all the mega subdivisions being added to our area.
870.	Rio B	Knoxville, TN	I live in south Knoxville but grew up playing baseball here. I would hate to see it go. I don't know of another field in south Knoxville like it. It's good for the community.

872.	Ginger H	Knoxville, TN	My children grew up playing ball there and we have friends with children that currently play there.
873.	Brittany T	Seymour, TN	Seymour is my home and this hits close to home. I am now 28 years old but when I was 9 up until 12 I played at bower field. Stop taking these creatures homes and stop added more population to such a small community!!!
874.	Steve P	Knoxville, TN	I grew up in Seymour and spent most days in the summer as Bowers Field playing baseball, as well as fall days playing football. This park has always been, and should remain, a recreational park for children to play team sports which are a critical element of one's childhood. There is not another park in the Seymour and South Knoxville area to meet these needs.
875.	Burns S	Sevierville, TN	My little cousin plays ball here and love watching him and his face light up as he plays!
876.	Ashley A	Seymour , TN	Our community is being destroyed by big developers whose bottom line is money and not about community, traditions, and preserving what we have.
877.	Lily S	Friendsville, TN	This would be an incredible loss to the community. Many of my friends and cousins have played or do play there. You're taking away a great place to learn discipline, leadership, teamwork, and relationships.

881.	Jessica R	Knoxville, TN	I played at Bower 30+ years ago. And now I am coaching my son there. We have so little for our kids in South Knoxville. Please do not take away onenof the only things we do have!
882.	Hannah F	Knoxville , TN	This is important to me because bower field is a part of my childhood. I have a daughter who has just started playing tball this fall. She has found a passion she truly enjoys. We drive by bower field on the way to our home and she has always loved the night lights when games are being played and has recently said "mommy! I get to play there!" I don't think bower field should be eliminated. This field has been here before a very long time and is a staple to not on south Knoxville community, but to Seymour as well. It is also the ONLY ball park close to Seymour where kids can play.
883.	Kelly P	Knoxville , TN	It's the only outlet for our kids in this area. You keep taking our land and putting cardboard houses up why not leave something that the Community needs, keep the ballfield for the next generation. With all the houses being built, you should know they'll have Children, why take away something that families can enjoy.
884.	Haley L	Seymour, TN	This is a big part of our community and it gives our kids an opportunity to play a sport they love without it my kids would not get to play because it's impossible for us to dry 45min-1hr to another park to play.
885.	Ann P	Seymour, TN	My son, granddaughter and other members of my family have started their athletic careers at Bower Field.

1,002.	Marshall K	Knoxville , TN	I grew up playing baseball at that field. Not only is it sentimental, but I also would love to see my kids play ball there in the future too! It is hard enough to get kids to play outside this day and age, and they want to destroy it? It's madness! Many leagues/teams in the community enjoy and depend on these fields, they have become a staple of the community and things like this should be protected from development. This is exactly how an area loses its charm for greed! I'm all for controlled growth and development, it must make sense and it must not over crowd. 1,077. Angela R	Seymour , TN	I grew up playing softball here. My kids played ball here and I want my grandchildren to play ball here. This place is needed for our Children/grandchildren. This place is utilized by both South Knox and Seymour families. If this is rezone, where Wil the children play ball? They would have to drive to Sevierville or downtown Knoxville .
1,078. Robin G	Knoxville , TN	Because the kids need bowers field ...i played there and my kids played there now I have grandkids I want them to have somewhere to play ball if that's what they want to do
1,079. Dylan R	Knoxville, TN	I grew up playing there it was a key part of my childhood, I can understand the need for more housing. I however do not see a need for there to be such an abundance of homes in the area. (3 per acre)

1,081. Christine B	Pioneer, TN	
1,082. Amber W	knoxville , TN	It's an iconic part of the community. It was built for the kids of the area by the Bowers and should remain for future generations.
1,083. Jennifer C	Sevierville, TN	I grew up learning and playing softball at Bowers Field and I want my children to have the same opportunity. We don't need more residential area and excuses for our kids not to be outside and learning sports. The community needs the baseball park for child development...physically and socially
1,084. Paige H	Sevierville, TN	This park is imported for the community and for the children. Kids need sports and socialization for key development.
1,085. Jason G	Seymour, TN	I played there and my kids play there. It is filled with kids every season and almost every weekend. It was built for this reason and should remain that way. Kids having somewhere to play ball is more important now than it has ever been!
1,086. Lindsey M	Knoxville, TN	My son plays at bowers field and I played there as a child. Where will kids go in south knoxville and seymour goto play baseball if bowers field is gone.

1,099. Lisa H	Mount Pleasant, SC	My Father, Wm. A (Bill ) Hays started this field to keep children involved in sports, bring community together and keep kids out of trouble, He was there everyday and so were his children starting up this ballfield. Mr Bowers leased the land to him and his group for specific use for a sports field. Unemotionally, Chapman Highway is very dangerous at this specific point and additionally home building would be not only unwelcome in the face of youth sports but a traffic hazzard. My Father would never have wanted this. His name is on a plaque on this field to honor him and the men and women who built this field. Do not rezone into residential please!
1,100. Whitnwy V	Alcoa, TN	I grew up playing softball here! This is a common place for kids to enjoy. Don't take that away from them.
1,101. Dawn B	Knoxville, TN	I played softball on that field.
1,102. Lisa N	Knoxville , TN	I live in south knoxville and it's already busy enough adding more apartments means more traffic and taking away the beautiful scenery of the mountains and taking away animals homes and acting like it's their faults when they come close or attack us.

1,116. Jaden h	Knoxville , TN	There are so many good memories at bower field for every ball player from Knoxville, Seymour, etc. Young boys and girls are still creating many memories at Bower Field. Seymour and South Knoxville need fields and land like this to not be torn down to create another business because a lot of our land has already been taken from us.
1,117. Karlie W	Knoxville, TN	I grew up playing here and Seymour is being over ran with new construction and development and will have no recreational baseball!

1,125. Melissa G	Knoxville, TN	Developers are quick to build for purposes of greed without thinking what this will do for the younger generations. First our skating rink gets demolished, and next our ball field. We already have enough housing developments. Our ecosystems are getting ruined, sewage run off from these housing developments are destroying our creeks, and I cannot be more against this than I already am. Preserve The Ball Field!

1,165. Dara B	KIMBERLIN HEIGHTS, TN	We need recreational facilities in this part of the county. Bower Field serves so many kids and families and is an important part of our history. We already are getting new apartments up the road and need to maintain some of the green space like that behind the fields that gives the rural atmosphere those of us in the area appreciate.
1,166. Brandon J	Rockford, TN	I grew up playing baseball here
1,167. Lacie J	Maryville, TN	I grew up at Bowers Field. I loved watching my brother play baseball. So many great memories had there. I couldn't imagine it turning into an ugly commercial property.

Seymour and south Knoxville are growing rapidly and if we don't get a chance on it there won't be anything left of our once amazing town. The residents that are from here are losing everything we've known and grown up around, it's so sad to see. Bower field is such an asset to the community, it keeps kids out of trouble and brings people together!
