

• DELROSE DRIVE PETITION •

We the undersigned herein submit our opposition to any proposed zoning exceptions that would affect the RN4 zoning now applied to the proposed residential development at 2805 Delrose Drive in East Knoxville, Tennessee. While housing options are needed, the property is surrounded by low density RN1, and we believe these exceptions would allow for an even larger multifamily development than currently allowed under RN4 that would overburden the existing streets and be out of scale with the surrounding neighborhood.
