

Hello, there is an upcoming rezoning hearing for a similar subdivision build and we would like to get some feedback about your experience with this subdivision to submit to our County Commission at the upcoming hearing. Please answer the following questions and provide your contact information for validity.

1) Have you experienced any issues with flooding in your newly constructed subdivision?

We have not experienced any flooding concerns in this area. However, there is an area on the side of the home that holds a lot of water.

2) Are there amenities like natural areas, playspace, or other in your subdivision?

There are not many amenities that are in this area.

3) Are you happy with the construction of your D.R. Horton home?

No. the home is poorly manufactured. We have lived here for a year + everything is very cheaply built.

4) Is there anything else that would make your subdivision better?

The quality of home. They need to take time to better construct these homes. I am afraid to see it in 5-10 years. After 1 year we have so many issues with the structure.

Please provide your address, email, and phone number (optional) 3/23/25
